Sharing Information

How you would like us to use your information?

OUR PLAN

We are really excited about this new coaching course Finding What Matters: Transformational Coaching Skills for Parents. We feel there is a lot of potential to help parents develop skills and confidence while increasing their income using skills they didn't realise were valuable. We would love to create an army of parent coaches who can support other parents with children who experience the world differently.

WHY YOUR INFORMATION IS IMPORTANT TO US

To do this, we need to demonstrate that what we are offering makes a difference to people who take part. We would love to gather as much evidence as we can about what works, what doesn't (so we can improve) and the difference it has made to individual coaches, their emotional well-being, their families, their finances, and the coachees that they work with, the coachee's emotional wellbeing, the coachee's families and finances. Yes – this is a big project with big plans!

WE NEED YOUR HELP!

The more information we can gather and use either with your name or anonymously, the more we can evidence to other prospective coaches that this is a good use of their very valuable time and money. We will use the information that we have permission to use on our website, on our social media platforms, in promotional emails and in other public forums.

Please complete the following page with your name, date and tick the permission you give detailing how your information will be used.

Please note: anyone who would like to submit their evidence to The Association for Coaching for the Accredited Certificate in Coach Training will need to give permission for their evidence and testimonial to be made available to The Association for Coaching in order to gain their certificate.
