# INTRODUCTION

## SYMPHONY OF THE CELLS

**Sy**<sup>1</sup>mpphony of the Cells™ is a collection of 18 essential oil applications created by Boyd Truman, based on approximately 26 years of practical knowledge and use of pure, therapeutic-grade essential oils.

When the original Symphony of the Cells™ booklet was created, it was only available at actual full-day events, where the different applications and purposes of using each oil were discussed in great detail. Due to ongoing interest and high demand, as well as the fact that Boyd could only hold so many trainings a year, he made the decision to sell the booklet separate from the training. The booklet was thus made available to the public.

Whether you are looking to help support a loved one with an ongoing ailment or illness, or are integrating the use of pure, therapeutic-grade essential oils into your massage or wellness practice, Symphony of the Cells™ is simple and effective. It is meant to bring harmony physically, emotionally, and spiritually within the body. Each of the 18 applications found within this book address a specific system and/or area of the body, allowing for a focused approach to the symptoms

and underlying causes of many ailments and illnesses. The lined area next to each application is intended to be a place for notes when attending the training or for journaling your experiences as you continue to use and apply Symphony of the Cells™ to benefit yourself or others. If you can not find a condition listed in this book, please reference the SOC Body Systems Chart™.

For more in-depth information regarding the Symphony of the Cells™ applications, techniques, and uses, please join us at one of the many Symphony of the Cells™ trainings held each year. The trainings consist of various hands-on demonstrations, as well as provide information on the origins of illnesses, the different body systems and how they relate, and the power of essential oils or other natural nutrients/modalities. Symphony of the Cells™ is fully endorsed by the National Certification Board for Therapeutic Massage and Bodywork. This allows attendees of each full day event to qualify for 6 Continuing Education Credits of Licensed Massage Therapy.

# SOC INSTRUCTIONS

## APPLICATION REFERENCE GUIDE

APPLY CARRIER OIL  
TO BACK/SPINE

ALLOW INDIVIDUAL  
TO SMELL OIL

APPLY OIL OVER  
HEART AREA

APPLY OIL OVER  
LIVER AREA

APPLY EXCESS  
OIL TO FEET

APPLY OIL  
TO ENTIRE BACK

APPLY OIL TO NECK &  
SHOULDER AREA

APPLY OIL  
TO HAND

INTENSIFY  
(OPTIONAL)

## Essential Oil Basics:

- Apply a carrier oil to skin before using oils with “sensitive” or “dilute” warnings.
- Let the oil drip out of the bottle. Do not press the dropper on to skin.
- Do not put oils in eyes or directly in ears.
- Do not add water to essential oils unless you want to INTENSIFY the effects. Use a carrier oil to soothe and lessen the intensity of any unwanted effects of essential oils.
- Keep bottles of oil out of direct sunlight and away from heat.
- Use oils internally only if the bottle has a “Supplement Facts” box.

## Before Beginning an Application:

1. Unless otherwise indicated, begin with the individual lying face down with their back and bottoms of feet exposed.
2. Allow the individual to come to a relaxed, calm state.

# SOC INSTRUCTIONS

## APPLICATION REFERENCE GUIDE

### For Each Application:

1. Follow the step-by-step application symbols while referring to the Symbol Guide on page 3. The symbols are there to help you know where the oil should be applied. Pay special attention to these symbols, as some of the oils used throughout Symphony of the Cells™ are in roll-on bottles and they are applied differently than just drops from the oil bottle to the spine/back area. If you see the hand symbol, apply the oil to the hand first. We have provided examples for you to follow within the SOC Instructions (pg.7-10).
2. For steps with more intense oils, (Clove, Cassia, Oregano, Thyme) the “Dilute”  symbol is included as a precautionary step for more sensitive individuals.
3. Apply the oils step-by-step in a circular, clockwise motion from the lower back to base of skull.

### (Continued):

4. Follow the symbols that depict the steps for each application (pg.7-10). This process could involve placing an oil-saturated hand near the person's nose, and then having them breathe in deeply, or (depending on the symbol shown) having them apply oil over their own heart, etc.
5. When indicated, excess oils on the hand are to be applied to the bottom of each foot.
6. Complete all steps in order for the specific application being performed.

# SOC INSTRUCTIONS

## APPLICATION REFERENCE GUIDE

### **Carrier Oil Application:**

Apply a layer of fractionated coconut oil, or a different diluting agent (olive oil, coconut oil, sesame seed oil, almond oil, etc.), onto their entire back. This acts as a protectant against potentially stronger oils that may irritate sensitive skin.

### **Aromatic Application:**

This step requires simply allowing the individual who is receiving the application to smell the oils that are on your hand. Let them know that your hand is there, so that they can inhale deeply.

### **Heart/Chest Area Application:**

Have the person who is receiving the application apply the oil themselves over their heart area. They can either directly apply the oil if it is in a roller bottle, or they can apply the oil to their hand first and then massage it onto the chest area.

### **Liver Area Application:**

Allow the person receiving the application to apply the oil either directly to the liver area themselves (right side of the lower ribcage), or they can apply oil to their hand first and then massage it onto the liver area.

### **Neck & Shoulders Application:**

Apply the oil to the neck and shoulder area. Reference the oil list for the specific application you are performing, and begin with the oil listed in Step 1.

# SOC INSTRUCTIONS

## APPLICATION REFERENCE GUIDE

### Entire Back Application:

Drop the oil onto their back, starting at their lower spine and working your way up to their neck and towards the base of their skull. Using your hands, move in that same direction while rubbing in a circular, clockwise motion along the entire back.

### Hand Application:

This step is for ease of use. Since some of the oils required for certain applications come in a roller bottle, it is sometimes easier to apply the oil first to your hand and then apply it to the back of the person who is receiving the application.

### Intensify (Optional):

You can intensify the effects of the essential oils by adding water. This helps to drive the oils, create heat, and therefore generate more movement within the body. There are several effective ways in which you can incorporate water: by hopping into the shower, taking a bath, using a hot compress, or going into the sauna. Don't worry, the oils won't wash off—in fact, their effects will be intensified. However, at this point, we do suggest adding additional carrier oil to lessen the intensity of the heat and moisture.

# SOC INSTRUCTIONS

## APPLICATION REFERENCE GUIDE

### How to Apply to Yourself:

Symphony of the Cells™ can benefit everyone in your life; children, significant others, clients, friends, and family. However, don't forget to prioritize yourself! Although it is most beneficial to have someone else assist you in applying the application, you can absolutely perform it on yourself when necessary. Not many people can access their entire back on their own, so simply apply the applications where you can reach. Begin on your lower back working as high as you possibly can and then maneuver your hands over your shoulders, down your spine as far as you can reach, and then work back up towards the base of your skull. If you are unable to reach the lower portion of your back, simply apply to the upper portion and vice versa. Complete each step by applying the oil remaining on your hands to the bottoms of your feet as you would if you were applying the application to someone else. Finish with a hot compress if desired.

If you are unable to reach your back at all, simply perform the application to the bottoms of your feet. The goal of Symphony of the Cells™ is not to be perfect, but to get the oils on your body.

### How Often & How Much:

In general, if someone has a relatively positive history of health, a proactive approach is to perform an application 2-3 times a **month**. For someone with a present condition, an application can be performed 2-3 times a **week** for 1-2 weeks, or as needed. Then, return to the proactive approach of 2-3 times a month. Per application, it's recommended to use 4-6 drops of each essential oil listed in the application. If the individual is new to Symphony of the Cells™, start with fewer drops. If the individual is a young child, is experiencing an ongoing condition or illness, or is over the age of 50, begin with only 1-2 drops of each oil, always remembering to use a carrier oil first.

# CARDIOVASCULAR

## APPLICATION

**Step 1:** Frankincense

**Step 2:** Carrier Oil

**Step 3:** Thyme

**Step 4:** Massage Blend

**Step 5:** Turmeric/Lemongrass

**Step 6:** Protective Blend

**Step 7:** Marjoram

**Step 8:** Basil

**Step 9:** Lavender

**Step 10:** Peppermint

### Body Systems:

1. Circ. & Cardio.
2. Immune
3. Urinary

Circ. & Cardio. = Circulatory & Cardiovascular

### Poss. Condition Examples:

- Aneurysm
- Angina
- Arrhythmia
- Atherosclerosis
- Blood Pressure (high/low)
- Cardiomyopathy
- Cardiovascular Challenges
- Cholesterol Problems
- Coronary Artery Disorder
- Diabetes
- Heart Disorder
- Heart Failure
- Heart Valve Disorder
- Phlebitis
- Raynaud's Disorder
- Varicose Veins
- Vascular Disorder

For additional Condition Examples, please refer to the SOC Body Systems Chart™.

# CELLULAR

## APPLICATION

**Step 1:** Frankincense

**Step 2:** Neroli

**Step 3:** Carrier Oil

**Step 4:** Cellular Blend

**Step 5:** Black Pepper

**Step 6:** Cassia

**Step 7:** Spikenard

**Step 8:** Copaiba

**Step 9:** Wild Orange

**Step 10:** Petitgrain

### Body Systems:

1. Endocrine
2. Immune
3. Nervous
4. Circ. & Cardio.
5. Digestive

Circ. & Cardio. = Circulatory & Cardiovascular

### Poss. Condition Examples:

- Alzheimer's
- Anemia
- Angelman Syndrome
- Autoimmune Disorders
- Epstein Barr
- Leukemia
- Lupus
- Lyme Disorder
- Lymphoma
- Malaria
- Multiple Myeloma
- Multiple Sclerosis (MS)
- Nephritis
- Neurofibromatosis
- Parkinson's Disorder
- Shingles
- Sickle Cell Disorder
- Spinal Muscular Atrophy

For additional Condition Examples, please refer to the SOC Body Systems Chart™.

# C 2

## APPLICATION

Step 1: Frankincense

Step 2: Carrier Oil

Step 3: Clove

Step 4: Coriander

Step 5: Turmeric

Step 6: Spikenard

Step 7: Pink Pepper

Step 8: Yarrow Pom

Step 9: Tangerine

Step 10: Melissa

### Body Systems:

1. Endocrine
2. Immune
3. Nervous
4. Digestive
5. Circ. & Cardio.

Circ. & Cardio. = Circulatory & Cardiovascular

### Poss. Condition Examples:

- ALS
- Aplastic Anemia
- Cardiomyopathy
- Encephalopathy
- Epilepsy
- Glioblastoma
- Guillain-Barre Syndrome
- Heavy Metal Toxicity
- Hemolytic Anemia
- Hypoxia
- Meningitis
- Multiple Myeloma
- Necrosis
- Neuronal Toxicity
- Peripheral Neuropathy
- Polyneuropathy
- Proteopathy
- Pulmonary Edema

For additional Condition Examples, please refer to the SOC Body Systems Chart™.

# CHI

## APPLICATION

**Step 1:** Frankincense

**Step 2:** Neroli

**Step 3:** Carrier Oil

**Step 4:** Cypress

**Step 5:** Lemongrass

**Step 6:** Blue Tansy

**Step 7:** Siberian Fir

**Step 8:** Helichrysum

**Step 9:** Copaiba

**Step 10:** Birch/Wintergreen

**Step 11:** Peppermint

### Body Systems:

1. Skel., Musc., Conn.
2. Nervous
3. Circ. & Cardio.
4. Immune
5. Respiratory

Circ. & Cardio. = Circulatory & Cardiovascular  
Skel., Musc., Conn. = Skeletal, Muscular, & Connective

### Poss. Condition Examples:

- Aches
- Arthritis
- Back Aches
- Bursitis
- Gout
- Herniated Disc
- Joints
- Migraine
- Muscle Weakness
- Neuropathy
- Postherpetic Neuralgia
- Restless Leg Syndrome
- Rheumatoid Arthritis
- Sciatica
- Scleroderma
- Scoliosis
- Seizures
- Tendinitis

For additional Condition Examples, please refer to the SOC Body Systems Chart™.

# DIGESTIVE

## APPLICATION

Step 1: Frankincense

Step 2: Carrier Oil

Step 3: Thyme

Step 4: Turmeric

Step 5: Massage Blend

Step 6: Bergamot

Step 7: Coriander

Step 8: Digestive Blend

Step 9: Geranium

Step 10: Peppermint

### Body Systems:

1. Digestive
2. Circ. & Cardio.
3. Urinary
4. Immune
5. Integumentary

Circ. & Cardio. = Circulatory & Cardiovascular

### Poss. Condition Examples:

- Acid Reflux
- Allergies
- Cirrhosis
- Colitis
- Constipation
- Crohn's
- Diarrhea
- Diverticulitis
- Fibroid Cysts
- Gastritis
- Giardia
- Heartburn
- Hemorrhoids
- IBS
- Kidney Infection
- Pancreatitis
- Stomach Aches
- Ulcers

For additional Condition Examples, please refer to the SOC Body Systems Chart™.

# EMOBIIC

## APPLICATION

Step 1: Frankincense

Step 2: Neroli

Step 3: Rose

Step 4: Jasmine

Step 5: Carrier Oil

Step 6: Spikenard

Step 7: Melissa

Step 8: Centering Blend

Step 9: Douglas Fir

Step 10: Spearmint

## Body Systems:

1. Emo. & Limbic
2. Endocrine
3. Circ. & Cardio.
4. Respiratory
5. Immune

Circ. & Cardio. = Circulatory & Cardiovascular  
Emo. & Limbic = Emotional & Limbic

## Poss. Condition Examples:

- Anger
- Appetite Dysregulation
- Autoimmune Encephalitis
- Bipolar Disorder
- Depression
- Emotional Trauma
- Fear
- Hyperorality
- Hypoglycemia
- Insomnia
- Limbic Encephalitis
- Memory Loss
- Mental Fatigue
- OCD
- PMS
- Panic
- Postpartum Depression
- Stress

For additional Condition Examples, please refer to the SOC Body Systems Chart™.

# FORGIVENESS

APPLICATION // \*ALLOW INDIVIDUAL TO APPLY STEPS 1-2 TO THEMSELVES

Step 1: Rose\*

Step 2: Geranium\*

Step 3: Frankincense

Step 4: Neroli

Step 5: Carrier Oil

Step 6: Clove

Step 7: Melissa

Step 8: Juniper Berry

Step 9: Bergamot

Step 10: Renewing Blend

## Body Systems:

1. Emo. & Limbic
2. Endocrine
3. Circ. & Cardio.
4. Nervous
5. Digestive

Emo. & Limbic = Emotional & Limbic

Circ. & Cardio. = Circulatory & Cardiovascular

## Poss. Condition Examples:

- Abuse
- Anorexia
- Biliary-Cholangitis
- Bipolar
- Broken Heart Syndrome
- Bulimia
- Depression
- Hate
- Liver Disorder
- Loneliness
- Mood Disorders
- Phantom Pain
- PTSD
- Sclerosing Cholangitis
- Rage
- Resentment
- Self-Doubt
- Self-Hate

For additional Condition Examples, please refer to the SOC Body Systems Chart™.

# HORMONE BALANCE

## APPLICATION
