

3 legal mistakes you're making right now

that can lead to losing your license,
getting fined or
shutting down your business.

LEGAL COACH® & ATTORNEY

Welcome! In this webinar, you'll learn:

- ✓ **3 BIG MISTAKES** that health coaches and licensed practitioners make when working with clients worldwide that could harm you, sink your income, or destroy your reputation.
- ✓ **3 LEGAL TIPS** to use today in your marketing & social media to immediately reduce your risk so you can stop doing things you don't even know are risky.
- ✓ **3 SMART WAYS** to work online and stay legally safe, especially across state lines.

We're counting down backwards from #3...

MISTAKE #3:
**Combining medicine and coaching in dangerous ways
that can get you into hot water...**
like being accused of practicing medicine without a license.

- ➔ Doctors are _____ and holding _____
_____ across state lines. Don't do that.
- ➔ Doctors are _____ IN their medical practice.
Don't do that.
- ➔ Doctors are _____ in a medical practice. Don't do that.

→ Simply using a disclaimer that says _____ and "I'm not practicing medicine" isn't enough. (You DO need to use disclaimers, but alone, they're not enough.)

→ Doctors & LMPs are using the wrong business entity _____ and _____ are for medical practices only, not COACHING practices.
(Legal Love Tip: Don't create a biz entity without talking with a lawyer like me!)

3 SMART WAYS TO WORK ONLINE:

1. Create an _____ or _____ for a coaching practice.
2. Have _____ businesses for medicine and coaching.
3. Get trained as a _____ if you want to work 1-on-1 across state lines.

MISTAKE #2:

**What you're SAYING in your marketing about
WHO you are and WHAT you do.
What title should you use? Doctor and Coach?**

→ Doctors & coaches are using the _____ and _____ names.

3 SMART WAYS TO MARKET ONLINE:

1. DO NOT say you're a _____ AND a _____ on your website or social media.
2. DO NOT say that your program diagnoses, treats, prevents, cures, heals, or manages any symptoms or specific medical diseases, conditions or issues – and don't say any of these things in your _____ .
3. Use _____ program names.

Remember, the more you talk about SOLUTIONS in your marketing and program titles and not that you can heal/cure/fix the PROBLEMS, the more legally safe you'll be.

Now for the riskiest mistake...

MISTAKE #1 :

**Not understanding what you can and can't do with
personalized nutrition recommendations,
labs and supplements.**

Who can give nutrition advice?

What can and can't you do with labs and supplements?

- ➔ Doctors and coaches are violating state _____ laws and _____ laws.
- ➔ Doctors and coaches are going way outside of their _____ _____ which is illegal.
- ➔ Doctors and LMPs using their _____ to sign up with lab companies to order labs for people across the country who are not their patients!

3 SMART WAYS TO WORK WITH NUTRITION, LABS & SUPPLEMENTS:

- 1.** Know your _____ _____ based on where your business is based.
- 2.** Know there are still 14 states where personalized nutrition advice is not legal unless you're _____ and nutrition is in your _____ _____ .
- 3.** Get trained as a _____ _____ to order labs or supplements for people across state lines as a coach. Sign up with a lab company or supplement company using those credentials.

**How can you learn ALL of the other areas of risk
- and what to do instead -
so you don't get investigated, fined, sued,
or have to shut down your business?**

introducing the...
