

THE ENNEAGRAM & NINE DIMENSIONS

THE ENNEAGRAM & NINE DIMENSIONS

Exploring the
Harmonic Bridge
Between the
Enneagram and the
Nine Dimensions

My Connection with the Enneagram and the Dimensions started as a downloaded message

I saw the Enneagram numbers on the physical body
and I heard it was part of the solar system

My work with land has brought me face to face with
the dimensions as well as a message from deceased
father

What is the Enneagram?

- 9 archetypal personality patterns
- Each point represents a soul wound and gift
- Rooted in sacred geometry: circle, triangle, hexad (movement)
- Guides transformation from ego to essence
- Connected to sacred contracts and intuitive archetypes
- Connected to neurological templates

What Are the Nine Dimensions?

- Derived from Barbara Hand Clow's 'Alchemy of Nine Dimensions', personal experiences with working with land, clients, and my own journey
- Layers of consciousness from Earth grid (1D) to galactic unity (9D)
- Each dimension holds a frequency band and energetic domain
- Supports human evolution and awakening

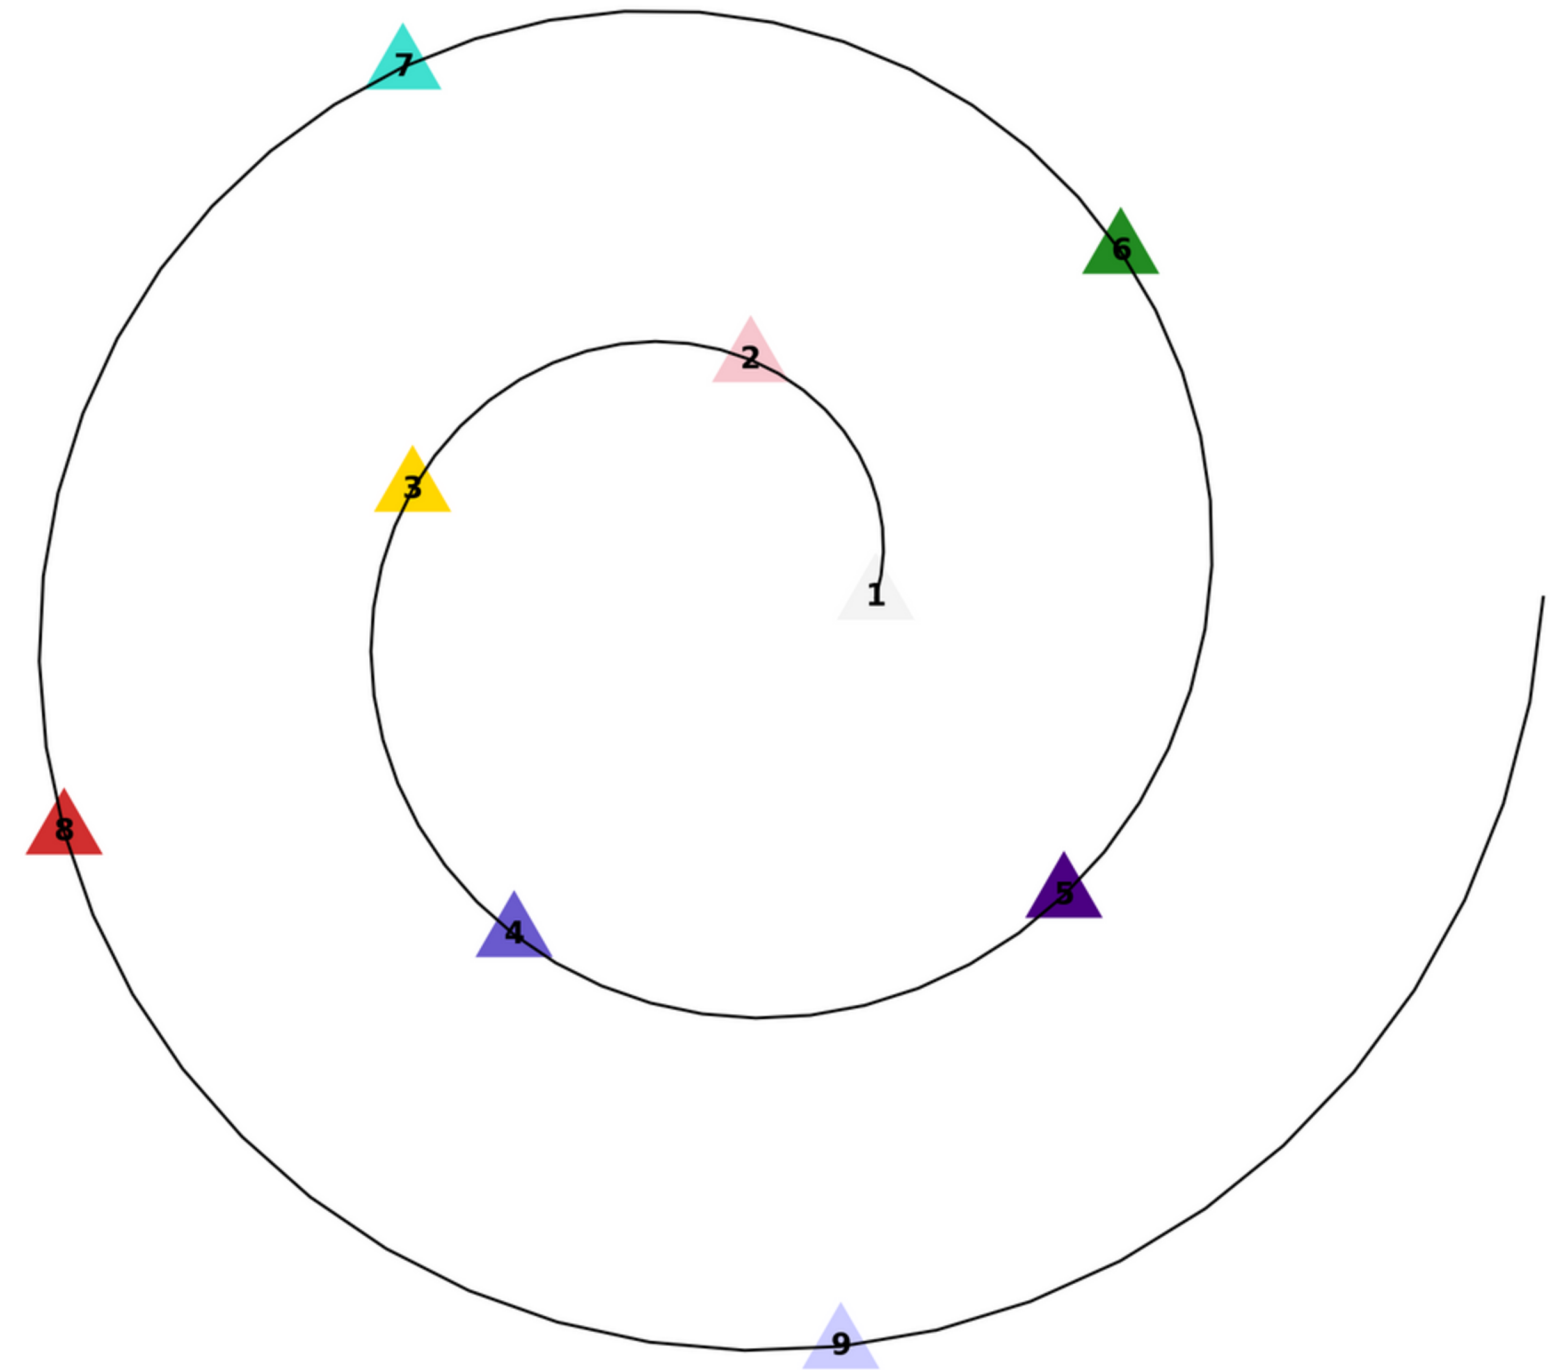

Bridging the Systems

- Imagine each Enneagram type being a portal into one dimension of being
- Integration supports healing in the mental, emotional, physical, and spiritual realities
 - Spiral model shows the underlying harmony in each dimension

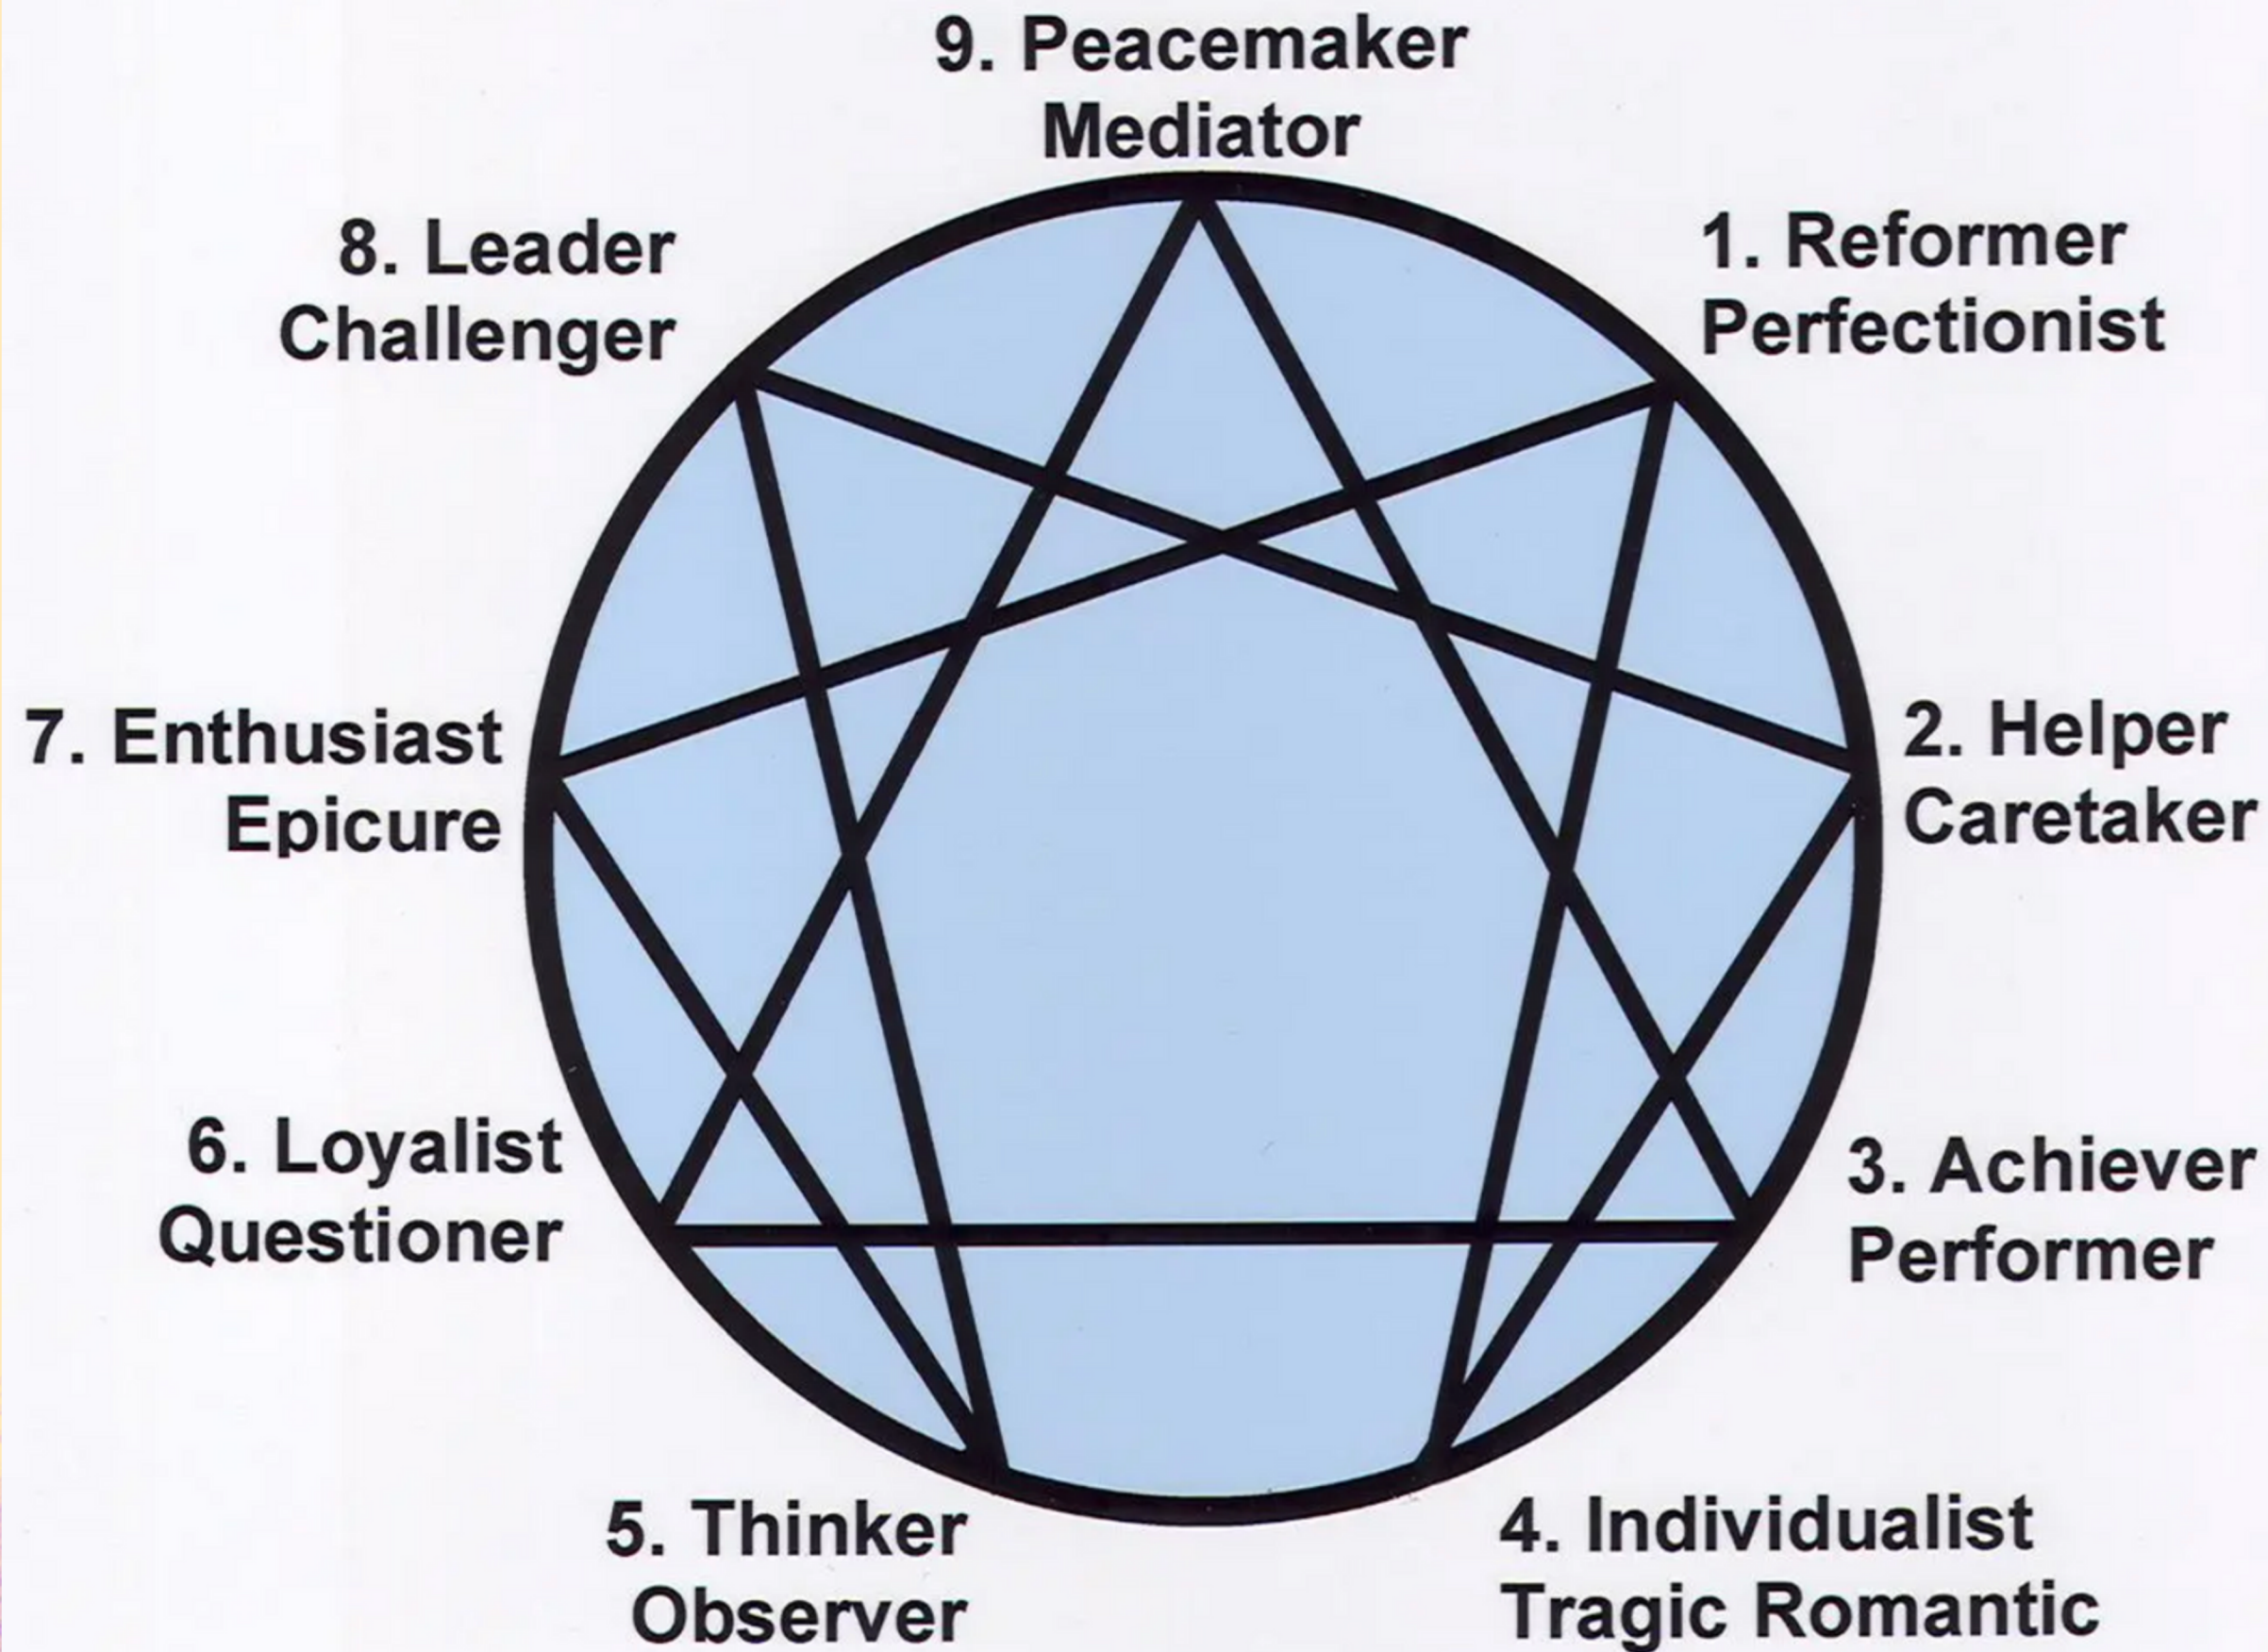

You Are a Harmonic Bridge

- Your type is not a box-it's a doorway
- The Enneagram shows where we fall asleep
- The Nine Dimensions show how we wake up
- Mantra: I embody harmony across all nine dimensions.

Harmonic Spiral Meditation

- Visualize ascending a spiral path through 9 portals
- Activate color, sound, and vibration for each type-dimension
- Ask: Where do I feel resistance or harmony?
