10 Days that Could Change the World

Creating a Gaian Constitution

Do you want to be part of **Birthing a Spiritual Vision** for the planet that can transform society into a responsible and regenerative **Co-Creation with Gaia**?

Then join the **Change-makers, Visionaries, and Possibilitators**, gathering in Denmark with one audacious purpose: to begin Creating a Gaian Constitution. One that above all declares **Gaia as a Living Being** with rights.

This event is about:

- **Creating a community**, where the creative power of people can be channeled into concrete actions, with the purpose of establishing a global society with a Gaian constitution.
- **Creating a clear container** (context, purpose and rules of engagement) for this community.
- **Creating bridges between groups** committed to get out of the way of Gaia regenerating herself.
- **Establishing teams** to continue the work after the 10 days...

The Evolving Program

This is a **Creators Space** with a respect for the occasional need to go into transformative processes to connect to our true self.

The program is not predefined, but will **Evolve Organically** and be co-created during 10 days.

It will involve:

- **Creating clarity about the possibilities and needs to be addressed** to create a Gaian Society - and to create teams to do it.
- **Create spaces for healing and transformation** of the wounded parts of ourselves.
- **Co-creating a context** that is clear enough and flexible enough for the task at hand.
- **Create spaces for the unknown** to surprise us, inform us and touch us.
- **Drafting the Gaian constitution.**

The Practical Stuff

The price has been kept low to let everyone join us on **Sep 1-10 in Denmark**. Read more:
