

Make This New Year Better Than Last

Happy New Year! Answer these questions to make this your best year in private practice yet:

Are you working the days/hours you want to work? If not, what do you want your schedule to be?

Are you working with the clients that you do great work with? Does that feel sustainable for another year? If not, what's your plan for shifting that? (We recommend the <u>Abundance Party</u>).

Is your fee where you want it? If not, do the free calculator at Lean In Make Bank.

What practice goals do you have for this week? Make sure they're things you do, not actions clients or potential clients take.

List 3 things you should pat yourself on the back about:

- 1.
- 2.
- 3.

Identify the biggest need/pain point in your practice and make a plan for how to solve it.

Depending on your struggle, the fix may be the <u>Abundance Party</u> or <u>Limitless Practice</u>.
