DAILY ALCHEMY MAGICAL MONEY TRACKER

You increase what you focus on. This month focus on of the money that is coming into your life. Even pennies count!! If you see one pick it up and add it to your daily tally. See how much money you can see coming into your life. You can even track items such as free lunches,etc. or you can just focus on money which ever feel best to you. Set an intention for the next thirty days to see and create more abundance in you life. Write down everything that comes in every day.

My Money Intention for this month.....
