Overview

Gaianna Sophia is a spiritual guide, clairvoyant, and Light Language activator whose work bridges first-hand galactic contact with grounded human integration. She works with individuals awakening to their star-born nature, often referred to as Starseeds, supporting them in remembering their origins, purpose, and role on Earth without bypassing the realities of human life.

Her work is informed not only by clairvoyant training, but by lived experience. Through repeated UFO sightings and ongoing non-human contact, Gaianna's path naturally evolved from intuitive and psychic work into conscious galactic engagement. These encounters did not pull her away from Earth, they brought her back into herself. One ET experience resolved an immovable existential depression and activated a deep sense of coherence, meaning, and belonging.

Today, through Starseed Origins Sessions, Light Language transmissions, and linking people back up to their Star Families, Gaianna helps others integrate cosmic consciousness into embodied life, offering clarity, confirmation, and a grounded way to live with galactic awareness.

“You didn’t come here to drown in Earth’s density. You came to Awaken your Galactic Self in Human Form.”
- Gaianna Sophia
