# Welcome to ELA Essentials

ELA Essentials is a new offering from Digital Theatre+, a dynamic platform designed to deliver powerful teaching experiences for ELA and theatre.

[Learn more about Digital Theatre+ here.](#)

Fun fact: before I joined DT+, I was a high school theatre teacher for over ten years, based in Texas.

From my own experience, I understand the challenges that you're facing. Concerns over literacy and comprehension, plus the volume of material we're expected to cover (and the lack of time to cover it in!).

All of this leads me to introduce our new, self-serve product:

**ELA Essentials** offers all-in-one resource packages to help you prepare your lessons and engage your students.

There are 3 packages available: Shakespeare, Poetry & Prose, and our all-inclusive ELA+.

You can find out what's included in each package [here](#), but generally, you can expect ready-to-go lesson plans, printable worksheets, filmed productions, and loads of e-learning resources.

I know that resource packages like these would've been a lifesaver when I was teaching – and early feedback seems to agree. I've heard words like '**easy to use**', '**flexible**', and '**reliable**' over and over, which has been music to my ears!

Now, finally, ELA Essentials is available for you to peruse, and I can't wait to hear what you think.

# What do teachers think?

“My class voted to watch *A Doll’s House*, which we had recently read aloud in class. **They talked about the production and their thoughts all throughout the day** (sorry AP Physics!), and brought those discussions to class.

When the bell rang with just seven minutes left in the production, I told them I would cue it up after school. **They all came back to watch the end and hear that door slam shut.**”

– Morris Community High School, Illinois

“I definitely think that, as I’ve been able to show more Shakespeare productions, my students have come away with a **better appreciation and understanding of the texts.**”

– Hillsborough High School, New Jersey

“I am always in need of new resources, and **I don’t have the time for endless searches.**

**This makes my job easier by providing what I need.”**

– Riverwood School, Texas

“I use the poetry dramatizations. We read the poem, talk about it on the page, and then watch a dramatic reading.

With those, the students can see how the tone of the speaker, their facial expressions and intonations, can completely change the meaning of the poem. **It has brought poetry to life for my students, which has been wonderful to see.”**

– Meadowbrook Alternative Program, New York

**Subject line:** Subscription request: ELA Essentials

Hi [Name],

I'd like to discuss the possibility of getting a subscription to ELA Essentials, a web-based, all-in-one resource collection for high school ELA teachers.

There are three packages on offer: Shakespeare, Poetry & Prose, and the all-inclusive, ELA+ – I'm especially interested in [Package Name].

Each package includes lesson plans, printable worksheets, filmed theatrical productions and recitals, and other e-learning resources. I've been able to explore it more during a free trial, and I'm confident that this product would make a real difference in the classroom.

Here's why I think it's worth us investing in:

[Adapt the following to your curriculum (or leave it as is!)]

- **Time-saving:** This package includes more or less everything I need to teach the core curriculum, all in one place. It's also all accessible online, with print-outs and downloadable worksheets available.
- **Increases engagement:** I've been hearing a lot about how theatrical productions can really change how students engage with literature (especially Shakespeare) – and each package includes multiple full-length productions.
- **Boosting retention:** From my free trial period, I've already found a number of new ways for students to take the lead in their learning. Plus, the time I'd save not having to find new resources could be spent more meaningfully.

Based on our needs, I'd like to go for the [Type, i.e., Annual, Monthly] subscription. This comes to \$[Price], but the final price could be less depending on how many individual users we opt for.

I truly believe this product could go a long way towards helping us to better engage and inspire the students of [Institution Name].

Best,

[Your Name]
