The auricle of the ear, interface of the limbic system

Copyright Dr Pascal Vidal. This document is the property of the Institute of Photonomedicine and may not be reproduced or circulated without permission.

2

The auricle is the initial site of action and the initiator of an action that will be reproduced on the relevant parts of the body, always under strict autonomic nervous system control through VAS.

Knowledge of these auricular maps is therefore essential for physicians and all therapists wishing to practice this method.

3

This method shares with auriculotherapy the auricular maps described by Dr. Paul Nogier, as well as the use of the VAS.
