# I'M AISHA ROSE MELODIE HASSAN

After 20 + years of pouring my love into teaching and practicing architecture internationally and successfully working with land energetics, I've discovered how to design beautiful properties that bring vibrant health and wealth to my clients and this planet.

My signature system, The Sacred Blueprint™, has touched 1000+ architects and property owners in less than 2 years. I'm a sought-after expert, the only one in my field providing high-touch coaching for women architects on how to partner with Nature's energy to create homes, gardens, communities, and cities of the future.

Following a distinguished career in conventional architecture, I was miserable and depleted. Not only that, I could see the limits of the old paradigm and how they were a detriment to our Mother Earth. I listened to my inner call, took the big leap, and quit my job to revolutionize a new way!

Now, I'm passionately living my mission, leading a flourishing business and sooo lit up about building the dream sanctuaries I help my clients create.

I want this for you, too. Let's birth the sanctuaries of our New Earth together!

# TESTIMONIALS

## ***“Aisha's program is vital to my centering and connecting to my truth!”***

Aisha's mentoring has greatly allowed me to explore the inner worlds of myself that are needed in today's world. And to bring them forward in my passion and thinking. I am integrating parts of my experience.

I am fulfilling the mission that I'm here for, Alchemizing, Nurturing, Honoring, and Healing with light in my heart. Aisha is a healer. So far, I began healing myself and I now recognize I am a healer. So, I can express myself peacefully, without dimming my light with shame or worry. This is part of the container we've created, and Aisha is holding supportively through the program, to birth the creativity that's in me through my projects.

For me, saying YES to this is transformational, I am having new breakthroughs often, and achieving my goals. Her guidance has encouraged me to direct my work and make decisions in ways that support my flow.”

## ***“I am able to achieve more than I thought possible for myself!”***

I love how Aisha guides me with her individuality. With an intuitive way she feels very well what is right and what is not right. Aisha brings out my uniqueness. She motivates and enthuses and also knows how to correct where necessary.

This is a nice balance between male doing energy and female arising energy. In this way, I can only become the best version of myself, right now. I am able to achieve more than I thought possible for myself! Because of her guidance and motivation, I can now transform all thoughts, all possibilities that shoot or wander through my mind into actions, concrete and tangible form.

Because of this I am now developing and working out a unique, workable trajectory for my clients, which also completely fits who I am. Through our cooperation and guidance I gain self-confidence in my own abilities.

It is worth it and I am already motivated to get out what is in it, every moment!"

***“I gained a lot of power to be BOLD, to become who I truly am and not be afraid to speak my own truth with my own voice!”***

Aisha’s guidance was so powerful and healing to my soul. I feel I went through a deep transformation and I got rid of a bunch of blocks. I received a lot of energy from Aisha and from our amazing women’s circle, a wonderful healing container of rising woman power. Her sensitive attention and openhearted attitude helped me to recognize my own blindspots and schemings, which was a great point of awakening in some way:) I became more conscious.

I feel I am more grounded after the Architect’s Studio and can spread more magic which is the most important thing for me! Now, I can see much clearer my way of working, and have formed my visions and services. I would recommend Aisha because working with her is a very deep and transformative journey.

She gave me so much power and inspiration to step into my dreams and be BOLD and brave enough to re-structure my beliefs. She is an amazing wise listener who asks the right questions and as a result, I became more conscious and have clearer visions. She was able to dissolve unsupportive belief systems in me which had a healing and uplifting effect not only on my business but also for me! Thank you so much Aisha!”

## ***“The Ephesus VIP Retreat transported me to a completely different timeline!”***

Aisha guided us through the Sacred Site of Ephesus with mastery, intention and grace, and our meditations together brought many gifts and treasures, such as a re-membering of Self, of ancient knowledge about the Spirit of Place, and of co-creating with the color frequencies and the Elementals. The Undines of the Water, the great crystals of the Mineral Kingdom of the Earth and other Nature Spirits were very present and gently and lovingly held us every step of the way.

We were fortunate to experience the multidimensional journeys on which Anemona Crisan so delicately led us to retrieve our personal and unique creative seed, which were filled with ease and flowing codes of light/ information.

After years of being in healing/dismantling mode, the VIP Ephesus Retreat enabled me to access a new level of being through my unique energy signature and my relationship with Mother Earth and the intelligence that surrounds me.

It was the deep inhale after what seemed like an eternally slow exhale - a gust of fresh, crisp air under my wings.

I am still in awe of how fractal my experience was, from being greeted by Nut and Geb, Sky Goddess and Earth God, during our initiatory gathering, then receiving and expressing the color and geometry codes of the Divine Feminine and Divine Masculine during a guided art meditation, to becoming that embodied rod of light connecting Earth and Sky with access to the various dimensions of place that coexist in present time.

This shimmering fractal of the Mystery is now with me wherever I am. It is a gift of enormous proportions that I am still integrating and for which I am in complete gratitude and appreciation."

***“No words can describe the collaboration I experienced working with Aisha! It’s a feeling of homecoming and speaking the same language.*”**

From the moment I saw Aisha’s work and learned about The Sacred Blueprint™, I knew we had to work together to bring HYMNN into (earthy) form. I can feel in every cell of my being that this is what Aisha has to bring into the world. Providing invitations, structures to work with her, that allow people to connect again with the spirit of the land, with Mother earth. To guide people into the sacredness of building. She is a master in inviting you to slow down, to connect with yourself, your own intuitive power, to connect with the energies of the land, to partner with it and then to really consciously and intentionally design and build the spaces you envision.

Aisha’s guidance is intuitive and crystal clear. She gave me the structure I needed to bring all that I envisioned into beautiful designs. The Sacred Blueprint™ was a joy and a gift to work with. Walking through the wheel, taking the steps felt so natural and sacred at the same time. Bringing energy into form. In our 1:1 sessions her profound and precise way of summarizing what I had shared is a talent of Aisha that gave me so much insights.

Thank you so much dear Aisha. I love(d) working with you!”

**Sylvia Van Den Bosch**

Visionary Leader and Community Builder, Hymnn

***“We feel very blessed to have worked with Aisha! She has a unique gift of communicating with the natural world without losing site of the practicalities of everyday living.***

I feel very fortunate to have worked with Aisha on our neighbourhood project. This project was very close to my heart and I don't think I could have found someone more sensitive to our needs as individuals, as a community and negotiate it with the land so skillfully that we could fit in and feel as a whole.

Aisha gained our trust from the get go with her willingness to listen and find the best solutions for us coupled with her sensitivity, and deep respect for the land. We felt heard and seen and also learned to feel and see the land in a different way through her eyes. Her commitment showed in the countless hours she spent observing, exploring, contemplating in the land.

Her genius as an intermediary between our dream and the wholeness of the land shows in the final design. Each of the 7 houses have their unique soul and gifts. It's been 2 years living in my house and there hasn't been a day I felt gratitude for the safety and connectedness our home offers.

Through each window the best of our surroundings are invited in and framed as living art, meanwhile the houses still feel cozy and contained.”

**Feride Gürsoy**

Land Steward, Family Constellation, Somatic Shamanic Energy Coach

***“Aisha greatly helped us align our vision and purpose with the spirit of the land where we’re making our home.***

Her guidance was inspiring and helped us to uncover our true vision for our homestead, which she then finessed into a design of great beauty, as well as heal the land so that we can begin anew.

It is absolutely wonderful to understand the energetics of our land, thanks to her help. We are excited to plunge our hands into the Earth and bring the design into reality, and look forward to an abundant homestead, filled with the richness of our collaboration with Aisha and the land, for years to come!”

**Celine & Jonathan Mackay**

Stewards of the Land, Owners of Sustaine Ecostore

**“What a wonderful pleasure and process to experience the birthing of my long-held dream retreat sanctuary!”**

After working with Aisha I have a beautiful conceptual drawing with which to manifest the ideal property. Her unique process took me deeper into my vision and at the same time allowed her to really listen to my thoughts and ideas. Then she added her amazing intuitive talents to produce a plan that is already way more wonderful than I could have imagined by myself.

I look forward to continuing collaboration with her and I know she is bursting with many more creative ideas to bring this project into the new world. I cannot recommend Aisha enough for anyone considering the creation of a project that needs to birth, for the healing of mother earth and all its inhabitants.

Aisha brings the connection with the spirit of the land (small or large) to the design process. When spirit endorses the project, it cannot help but be perfect for those that will experience its healing energy.”

## ***“Truly great mentors are hard to find but when found are impossible to forget!”***

Aisha is one of the rare soul-touching mentors who didn't have the answers for me but had magical skills to help me find my own. She believed in me, inspired me, helped me focus, was around me and allowed me to see the hope inside myself.

She brought forth my skills and encouraged me to master what I am good at. From weakness to strength and from nothing to something, “Aisha” was the “Rose” that balanced my vibes to compose a “Melody” ...

That's what AISHA ROSE MELODIE is to me. Every time I try to count my blessings Aisha is amongst the top 3. She's a soul mentor and I can't thank her enough for making a great difference in my personal & professional life.

With her empowering me to see a possible future, and believe it can be obtained, allowing me to see the higher part of myself when sometimes it becomes hidden to my own view I will always find my way to move forward with her."

### **Sanya Asmar**

***“The gift that Aisha shares is unique in its transformation to allow you to grow directly and indirectly from her teachings and through her words of empowerment.***

In her one-on-one mentor offerings, she finds those points of connections with the land, with spirit, with inspiration, and with source, and stewards you into finding your own connections as well.

Her personalized meditations and check-ins guided me step-by-step into developing a greater trust in my intuition and body sense while the practices and exercises encouraged me to think through how it all translated into the vision and mission of creating my business offerings”.

**Tami Codianne-Miller**

***“It was refreshing to be really listened to & supported to pursue design in a soul-centred way, connected to earth & spirit!”***

Aisha taught me new ways of connecting to my intuition to guide the design process.

She encouraged me to get very clear about my future desires and I believe this clarity helped to unlock incredible manifesting powers!

My very specific dream which seemed impossible has miraculously taken shape and I am now working on projects that are meaningful with communities that I want to impact positively."
