## TUESDAY'S LECTURES - BREAKDOWN

WITH	Dr Manjir
PLACE	Main meeting room
FORMAT	Lecture/Discussion

# What's The Real Deal about Planet Earth?

The true history and nature of our planet and ancient civilisations  
- Dr Manjir

In this talk, we shall examine how The Black Hole Principle plays out throughout time. Like everything in nature, time is actually a spiral that fluctuates, creating golden ages of enlightenment as well as eras of relative darkness. This is why we have gone from great heights of human civilisation to relative Dark Ages.

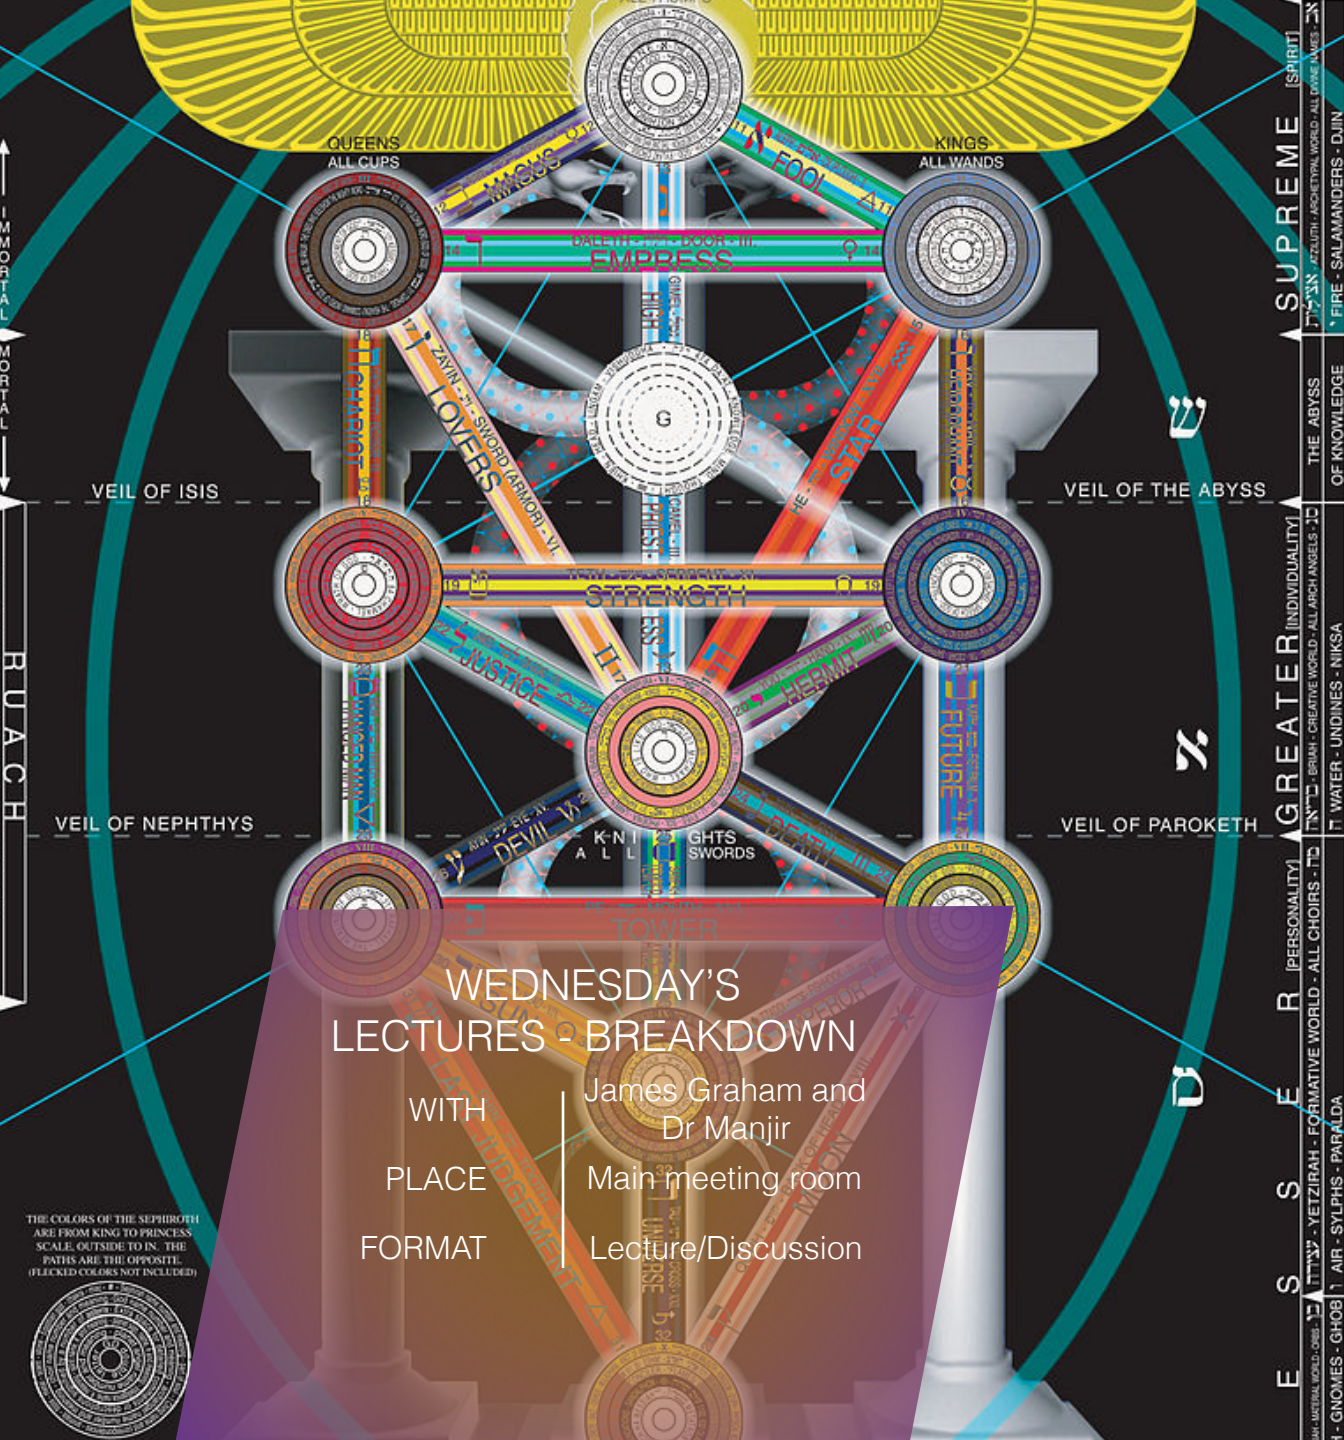

We will examine the evidence for The Black Hole Principle occurring at the level of the Earth and why it has been responsible for events such as the great flood before discussing the scientific evidence for Atlantis and Lemuria. We will discover how we could be heading for a golden age of enlightenment yet again. Prepare to go deeply into the nature of time and the cosmos!

## The Gods, the Dimensions and us

- Dr Manjir

Having looked at the big picture of time, we shall revisit various ancient legends from around the world in terms of dimensions and the Accordion Effect. This is the concept that the dimensions are actually breathing - coming together and moving apart and then repeating the cycle.

This could be the explanation as to why our ancient ancestors seemed to have a direct relationship with the gods, but we we no longer seem to have such encounters. In this context, we will examine the Ancient Kings lists and how 'mythical' figures seem to have extremely long timespans. We shall look at how various cultures around the world developed their relationships with the gods and what the gods demanded from humanity. We will then look at how the gods still influence us today through covert means.

# Who really were the people of the Bible?

Dr Manjir

Whether you belong to one of the Abrahamic faiths or not, the events of the Bible have a major effect on the psyche of the Western world and beyond. But modern archaeology and science are coming to the conclusion that the Bible is simply full of mythological stories because no evidence has been uncovered. After studying the science, linguistics, archaeology and genetics for over a decade, Dr Manjir has pieced together a new history of the Bible lands showing the movements of different people across the world. Through this, we can trace not only where our dominant culture came from but how we are connected with each other.

# The Egyptian Kabbalah Tree of Life, The Elite and their relationship with the Gods

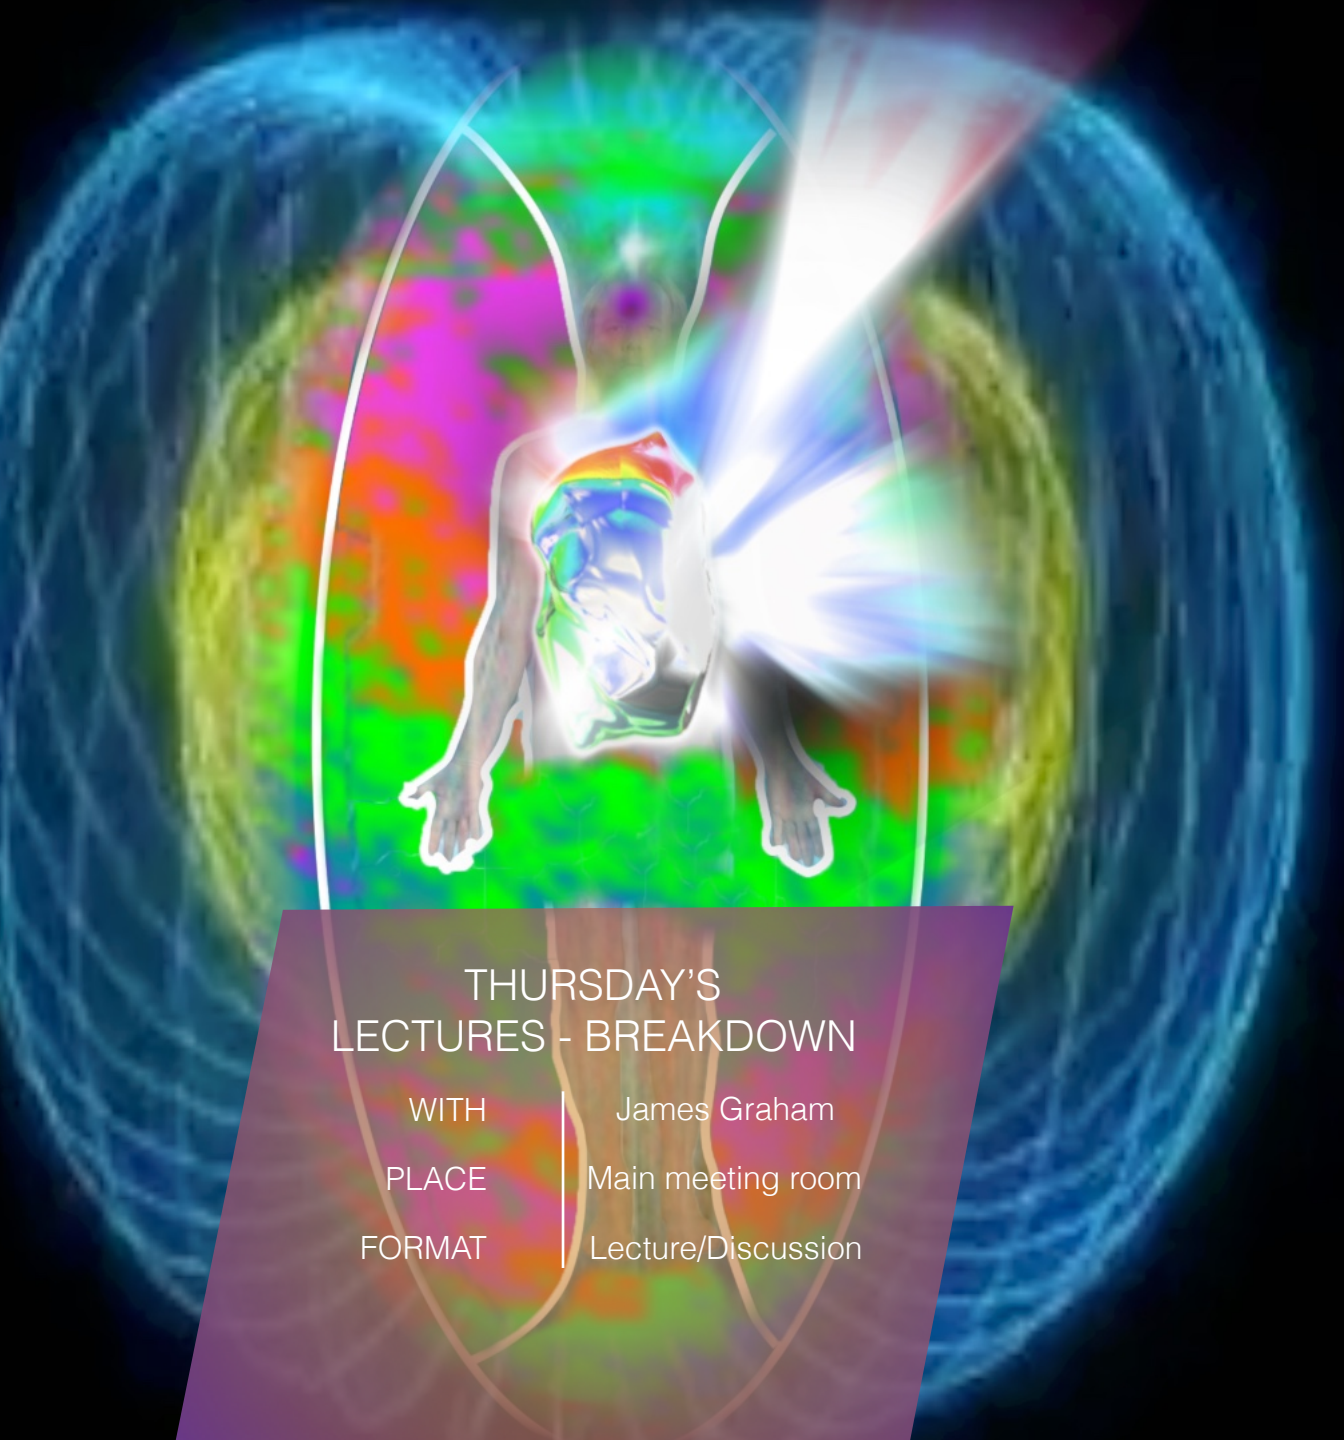

James Gordon Graham

James explains how the Kabbalistic tree of life consists of sephirot: spheres that map the polarities of consciousness and how these map our individual and collective consciousness. You will learn how the Ancients connected to gods through the Tree of Life: this knowledge has been mostly lost to modern humans. You will finally understand why Unconditional Love is the true nature of reality.

# The fall of Secret societies - modern banking and elite control systems

James Gordon Graham

James will give you an understanding of how our current establishment systems are already being replaced with positive systems that will help people get into their creativity. True knowledge of the gods has been the domain of many within the Elite and in particular, how their hierarchies are designed to enslave you from birth. Importantly, you will learn how to free yourself from the system and what the consequences of this will look like for you in a positive future.

## THURSDAY'S LECTURES - BREAKDOWN

WITH	James Graham
PLACE	Main meeting room
FORMAT	Lecture/Discussion

## Evolution of the soul

- James Gordon Graham

James presents his radical new hypothesis on the evolution of the soul and how this new evolutionary process works both individually and collectively. It will include the first ever motion graphics of the soul and you will also be shown, with powerful new computer generated graphics, how the ancient knowledge of evolution has been superseded by new scientific evidence that will give you a better understanding about the reason you are on the planet.

## Architecting a Positive Future

- James Gordon Graham

James will show you what to change within your consciousness to automatically forge a Positive Future for yourself. The key stepping stones towards this are mapped out and include how your individual evolution is so important to understand.

You will be shown techniques to access the Multidimensions as well as practical areas that will change your life as a consequence. You will learn the importance of your past lives - your reincarnation process and what this has to do with your emotional and thought energy light forms. Other hidden knowledge taught by the likes of secret societies, mystics and psychics will be given to help you to develop your multidimensional abilities.

It is easier than you may think to create a new system that will help you get into your passion and creativity and architect a positive future.

## FRIDAY'S EXCURSION

WITH	Dr Manjir and James Graham
PLACE	On Location
FORMAT	Lecture/Exploration

## Mystical Shakespeare

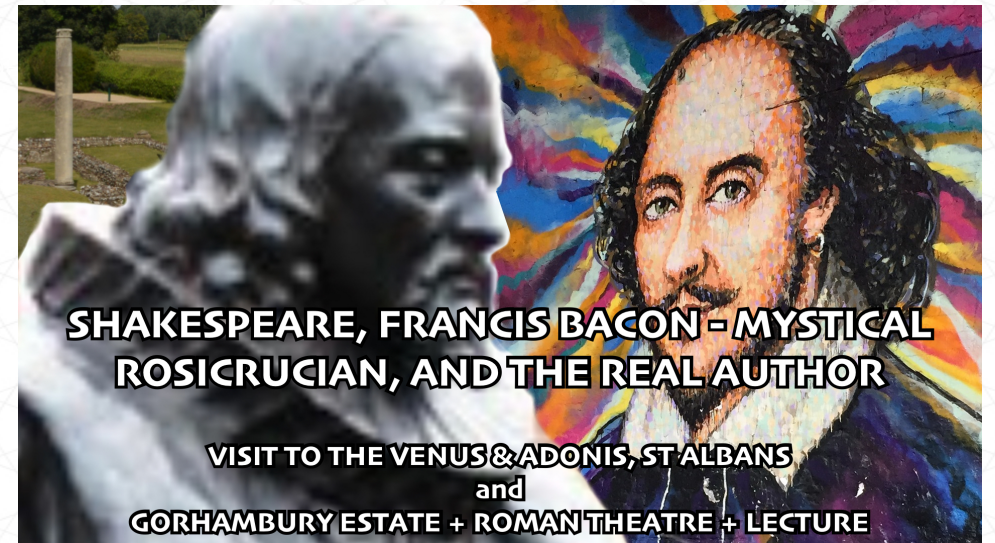

- Dr Manjir and James Gordon Graham

In this unique program we will visit nearby St Albans and explore the mystical aspects of Shakespeare's plays. Sir Francis Bacon is widely believed to have written the plays attributed to William Shakespeare. We shall visit some of the unique evidence that supports this theory including the site of Bacon's house in Gorhambury plus the Roman Amphitheatre and discuss the Rosicrucian Secret society influence on the works of Shakespeare.

## Francis Bacon and The Oak Island Mystery

- Dr Manjir

The world-famous Oak Island Mystery is often linked to Sir Francis Bacon. Could the fabulous treasure of the New World be the precious Shakespeare manuscripts themselves?

# Soul Field Therapy

with  
**James Gordon Graham**

---

## SESSION ONE

---

### Core Soul Field Therapy

In session 1 you will experience the worlds first energy healing practice that lets you access your own Soul Records to take you into past lives, clear traumas from this life and travel inside your body to get to the root of many blocked emotions.

There are two key reasons for doing Soul Field therapy - the first is to make room within you for clearer access to the dimensions and secondly to heal any past wounds that could be causing todays lack of energy (or even illness).

## SESSION TWO

---

### The Emotional Soul Field

In session 2 we look at clearing your own body of trauma. The more clearing you can do the more room you will have to potentially move your consciousness into the multidimensions and see for yourself what is really going on. Do you want to contact your Spirit Guides, contact your relatives that have passed, have an OBE, understand telepathy or see the future?

During Soul Field Therapy we start to make the room for you to access the multidimensions by clearing your inner sight.

## SESSION THREE

---

### Incarnations - Past Lives

In session 3 we go into past lives. Our soul fields hold our primary memory bank. Part of the reason we sometimes can't remember our past lives easily is that there is often a personal motivation to forget our struggles and we don't want to experience the deep emotions that they may bring up.

We repeatedly incarnate in order to resolve some of these soul memories and at this time in the evolution of the planet many souls are confronting these issues and Soul Field Therapy helps to accelerate and resolve any unfinished business.

Soul Field Therapy practitioner certificates will be issued for those who want to help others.
