# A Dream Pulled Through Into Form...

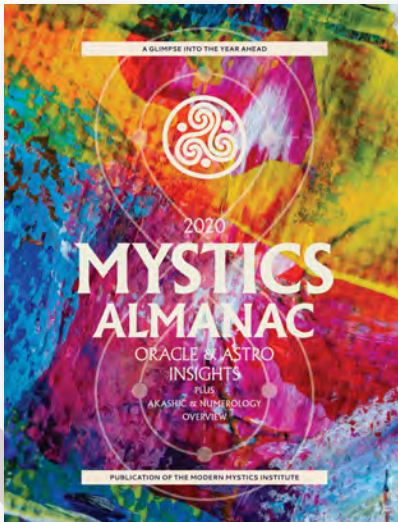

The Mystic Oracle, Almanac and Annual Forecast were born of a burst of insight brought forth from a dream. It was an invitation from the ethers to offer the Collective a glimpse into the landscape ahead. Now in its second year, we submit this humble forecast to you with respect, deep reverence, and endless gratitude for the inspiration that guided its creation, and offer blessings to all those who will be guided by it on their journeys.

# About the Mystics Oracle Forecast

*From Lindsay Pera*

*Founder of the Mystics Society and Creator of Forecast and The Mystics Almanac.*

**Welcome! And thank you for saying yes to inviting this forecast into your life.**

The Mystics Oracle 2020 Forecast reading provides an overview of the predictive energies for the entire year ahead. 2019 was a year of surrender, pacing, reinvention and persistence. Although as a collective we are aching for resolution to big issues of our health, our financial abundance, and our environment – that culmination is not yet on the horizon – although we are getting closer. 2020 will be a year of transformation however, where the last vestiges of old paradigms that need to crumble are released and an opportunity for healing reveals itself to us all.

The 2020 Mystics Oracle Forecast will help you answer the questions: What will 2020 hold for you? Will the path ahead be clear? What aligned steps can you take for your health? Heart? And prosperity?

This year-long overview will help you gain potent and actionable insights into your year ahead. It acts as a sneak peek into the broader guidance published in “The 2020 Mystics Almanac” which shares daily oracle insights, guidance from the Akashic records, numerology and astrological wisdom and key events for the coming year.

In 2019 The Mystics Oracle Forecast took flight. What began as a reference guide for our private clients and membership community “The Mystics Society” became a free downloadable guide and beloved resource for people all over the world. We were truly delighted and grateful to see the potency and accuracy of the divination held within the forecast. Over 12,000 downloads later, we witnessed the magic garnered by those traveling through the year with the forecast as our guide. You need not be in the dark during these times of uncertainty and change. And most importantly, you need not journey alone.

Welcome - and thank you.  
Xo Lindsay

# 2019 In Review

**Altar:** Right Livelihood

**East:** What leads us into this moment (Past) - Below

**South:** What wants to be seen now (Present) - Sacred Masculine

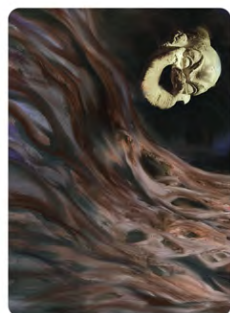

**West:** What we are headed toward (Future) - Breakthrough

**North:** Blindspot - Tools

Before we dive into 2020, it is helpful to review the guidance we received for 2019.

*The 2019 Mystic Oracle Forecast card reading showed the following cards:*

**Below | Sacred Masculine | Breakthrough | Tools | Right Livelihood**

24 | Below

4 | Sacred Masculine

16 | Breakthrough

41 | Tools

When looked as a whole, the 2019 forecast was a message of persistence with reinvention mixed in. This was the year where the rubber began to meet the road. We saw the light of the north star of equality and justice - but we know we still have many miles still to travel to make them a reality for all. In 2019 we were reminded to not simply continue to keep pushing onward in the same old ways we had been, and were instead guided to use finesse, intuitive arts, wisdom, and aligned action to begin to make change both at home and on the community as well as global level. In 2019 we were reminded that we have the tools and the time to use them is now. With a marathon instead of a race before us, we were guided to “rest at the turn of the new year,” because the journey of 2019 required both pacing and discernment. We saw “Surrender” as one of the most frequently recurring Oracle cards in the forecast and were reminded to heed its message to avoid burnout and depression. With every passing day and every month it became more and more clear just how accurate the reading was for what we saw throughout 2019, whether you're looking at the economic climate, the political climate, or the social shifts. In 2019 we were called forth to begin collective healing on behalf of ourselves, our ancestors and our children. We were reminded that ultimately it is up to us to weave the potential of our future. The Forecast predicted the ways in which 2019 would be a bridge year to creating the world we desire to leave for our children and our children's children. The guidance called upon us to remember the proverbial “200 year plan” – so that we could keep our eyes on the horizon and put one foot in front of the other knowing that we had everything needed for the journey. As we journeyed, we were reminded to lean on “trust” and to release “fear.” 2019 was a year that promised to deliver us to continue to SEE all that needed and wanted to be healed in our collective, and promised first glimpses of the return of the light that comes with Breakthrough in these times. This was the medicine of 2019 as predicted in the Mystics Oracle Forecast, and it is the foundation for the journey ahead into 2020.

# The Energies for 2020

*“How should we be able to forget those ancient myths that are at the beginning of all peoples, the myths about dragons that at the last moment turn into princesses; perhaps all the dragons of our lives are princesses who are only waiting to see us once beautiful and brave. Perhaps everything terrible is in its deepest being something helpless that wants help from us.*

*So you must not be frightened if a sadness rises up before you larger than any you have ever seen; if a restiveness, like light and cloud shadows, passes over your hands and over all you do. You must think that something is happening with you, that life has not forgotten you, that it holds you in its hand; it will not let you fall. Why do you want to shut out of your life any uneasiness, any miseries, or any depressions? For after all, you do not know what work these conditions are doing inside you.”*

*~ Rainer Maria Rilke, Letters to a Young Poet ~*

# Transformational Levers for 2020

39 | Ancestors

41 | Tools

22 | Gratitude

The guidance from the divination for the Three Transformational Levers for 2020 is essentially a message of lineage, of capability, and of thankfulness.

For our health and wellbeing we are being guided to remember where we came from – honor those who have gone before – and recognize that we do not need to journey alone.

For our relationships to thrive this next year we are reminded that we have tools to support us – and to **USE** them.

And for prosperity – thank you thank you thank you thank you – and more please. When we see Gratitude afoot, we are reminded that in order to invite **MORE** of what we desire in our finances or in our relationship to money, we are guided to first give thanks for what we already have, and grow from there.

## The Three Transformational Levers

**Health and Wellbeing:** Ancestors

**Relationships:** Tools

**Prosperity:** Gratitude

# Interpreting the Four Card Spread for 2020

As we did in 2019, we used the four card spread outlined in the companion book for The Mystics Oracle Deck to illuminate the overarching energies of the year. This view showed us:

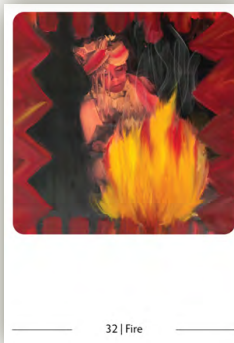

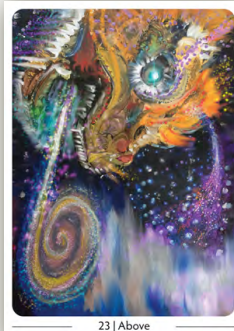

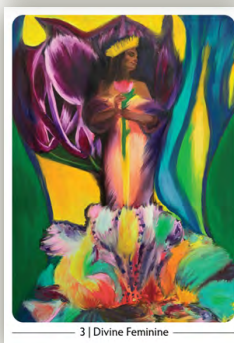

- East:** What leads us into this moment (Past) - Transformation card 13  
**South:** What wants to be seen now (Present) - Divine Feminine card 3  
**West:** What we are headed toward (Future) - Above card 23  
**North:** Blindspot - Fire card 32

2020 is an interesting contrast to the energies of 2019, and also a clear evolution from them. While we will not yet see the full culmination we still so eagerly desire (hello 2021), we are seeing just how potent 2020 will be for the shift. 2020 is the year of the fulcrum, the pivot point. By the end of 2020, we will be having a collective exhale. We may not yet be to resolution, but at least it will feel as though all the cards are finally on the table. There will be no more shoes left to drop. The underbelly will be fully exposed and have nothing left to do but to heal, restore, and rebuild.

We can take the learning further by looking at the guidance, mantra, and inquiry from each card. You can use these insights in your journaling to help illuminate YOUR areas of focus for the year.

The four card spread for 2020 shows us a whole lot of ongoing transformation. In fact, in the east we see the Transformation card itself. As a result, the overarching energy leading into this moment is all about shift and rebuilding. It's about claiming the foundations for transformation.

In 2020, we are very clearly at the fulcrum point of transformation. Again, this culmination we've been wanting to see since 2016 is still a full year, or more, away. In The Mystics Almanac, our guest experts expand upon this further. Vanessa Cuoto has done some beautiful astrological translation for us around what she's seeing cosmically, in terms of when we start to see global shift. Kari Samuels and Priscilla Stephan both offer potent insights on how to access joy and potential in 2020 as we navigate the shifts. Since the resolution energy doesn't come until 2021, the transformation being worked upon us is practically unavoidable in 2020. This is all the more reason why having solid self-care and core routines, as well as allies and tools, will continue to be important in the coming months. It is necessary to remember that there is light and grace and magic and fun and beauty-way to be found **IN** the transformation and the fire.

# What Leads Us Into This Moment?

## Transformation

Past

### East: Transformation

Allow yourself to adapt and change. Remember how we pointed to those energies of 2019 that said reinvention and persistence were key? Well, here you go. Remember that reinvention and persistence. The mantra is “I evolve” and the inquiry is “What have I outgrown?” Ask yourself, “What am I shedding and what have I learned?” These are excellent mantras to carry through the end of the year and beyond.

# What Wants to Be Seen Now?

## Divine Feminine

Present

### South: Divine Feminine

The South card is the direction of the Divine Feminine itself. It is the direction of sacred commerce, passion, and play. So this is a meta message, a double south South. It's as though the universe is shouting, **THIS IS THE TIME OF THE RECALIBRATION WITHIN HUMANITY OF THE DIVINE FEMININE.** Mayan astrology confirms this. The South / Divine Feminine holds the energy of the sun and the fire. These are powerful energies of transformation and life force. As intense as transformation energies can be, there is also a juiciness and a beauty to this guidance. It's a reminder to call upon your inner higher self, or priest, or priestess energies. There are thresholds of huge power within us all. It's time to step through them. The mantra is "*I welcome the Divine Feminine and remember the truth of my being.*" Remember, this is not gender related. I want to stress that this is about accessing the balance between Sacred Masculine and Divine Feminine and allowing the Divine Feminine to have her time. The inquiry is; "*How can I allow more ease and grace?*" I know everybody is asking themselves that question. How can it be more simple? How can it be more effective? How can it be more resonant? How can it be more efficient in terms of my application of my life force energy or my financial resources? If it feels like you are pushing the boulder up hill or spinning your wheels it's time to pause and recalibrate. Seek the flow. Allow the grace.

# What We Are Headed Toward?

Above

Future

## West: Above

Where are we headed in terms of the future? You probably feel it in your solar plexus when you see the Above card here because 2020 holds a bunch of big dates and a bunch of big potential in the social and political landscape. There is already a lot of speculation in terms of the political unfoldings in the UK and Europe, but also in the United States. These elections will have a huge impact on the psyche of the Collective as well as on social policy and economic markets. There's so much at risk. But also so much potential. It's big. So what's the guidance? Turn your attention to the heavens. We are reminded that this next year "while you pray, move your feet." Don't get stuck, don't give up - keep moving. Allow for the transformation but not to the detriment of your spiritual practices. You're going to want to do it with your guides and allies walking right by your side. The mantra here is "*I am more than my ego. I am connected to Source and the inquiry.*" How do I get out of my box and how do I see beyond my mind? If ever there was a time for radical solutions, magic and miracles, that time is now. There are radical solutions needed – like the enzymes that are converting plastic in the oceans or the machines that are turning manure into pure water and life giving soil. In order to invite magic, miracles and industry disrupting solutions to global problems we must expand our imaginations and loosen our grip on the past. Our hands must be open and our touch as light as possible. It is kind of like loosening the grasp of the hand on reality so we can let radical, beautiful, magical, mystical miracles occur. We are calling in those types of miracles now, and allowing them to come into form.

# What Wants to Be Seen?

## Fire

## Blindspot

### North(The Blindspot): Fire

The guidance from the north is to allow transformation from fire while experiencing the journey in grace. The transformational power of fire can bring destruction and also new growth. The mantra is “*I burn, I transform.*” The inquiry is “*How can I surrender to the change?*” Just like the Above card, Fire instantly brings shadow and light forward. The way the Above card reminds us to double down on our spiritual practices is similar to the energies of the Fire card. We must call on our trust and faith in order to journey by the fire. Fire is one of the most important tools to mankind. Fire provides warmth, safety, protection, but also intensity, transformation, and more. Fire is also LIGHT. It represents our inner fire. So there's a lot of guidance pointing from Below to Above – and seeking to help move the collective through the process of change. We are also reminded of the **INNER** fire, the inner flame, the inner light. Light is one of the most mutable tools we have in our toolbox. Sarah Love reminds us that with intention and focus our light has the power to become a laser beam. Remember that metaphor – and the power of intention – as you journey through the year. Like the laser beam you can transmute the energy within and create a focal point that allows for that clear and focused direction of your intention. And one thing is crystal clear: We are going to want to use that power for good.

# The Most Frequent and Least Occurring Energies

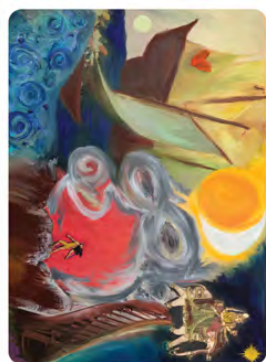

Providing a bit more insight into the overarching frequency of the cards and energies was really important to us this year. So, we took every single card we ran and created a pivot table to determine the recurring frequencies by card. Then, we looked at that distribution to see what was in the top five, and also to see what was least occurring.

# Most Occurring Energies

**Our most occurring energies are: Below | Journey | Fire | Transformation | Time**

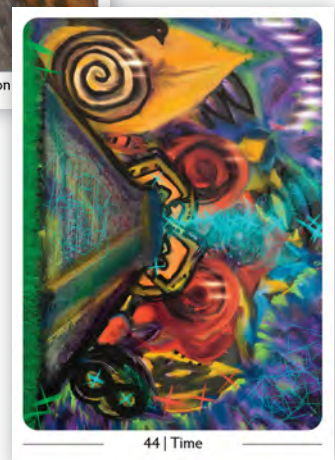

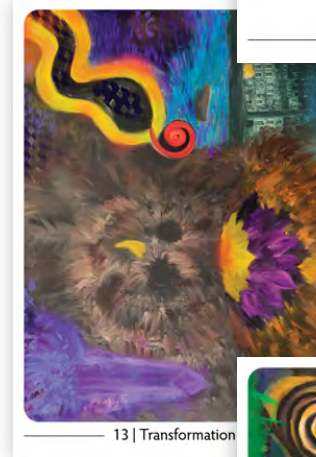

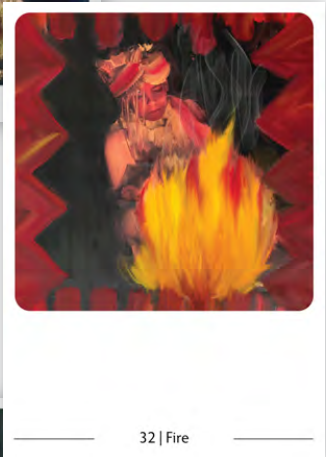

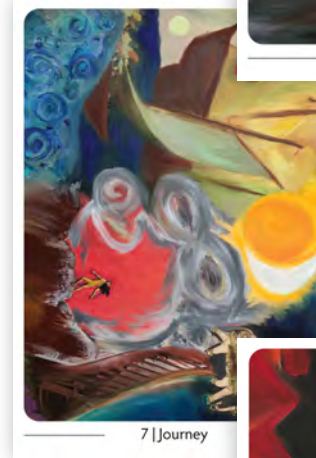

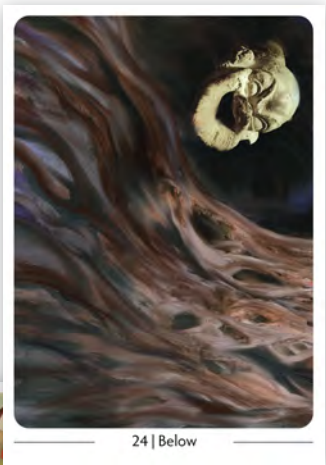

Number one, or the most frequent card, was Below. This tells us there is **MORE** to be seen. The answer to the inquiry so many have been holding (“Have we surfaced it all? Have we seen how low we can go? Have we excavated everything that needs to be excavated?”) is most likely, “Not just yet.” There's probably going to be a lot more of that underbelly showing itself. Again, there is always shadow and light at play, and on the flip side of the energy of the Below card, there is a lot of opportunity for rooting and grounding. This is an invitation to get in connection with all that is supportive to you, and then to pace yourself in the year ahead. Do not be afraid of what is beneath. Do not avert your eyes. Allow yourself to bear witness, and to be in connection.

The second most recurring card with a frequency of 12 times was the Journey card. It's message is clear: We are still **ON** the journey, and it's up to each of us to navigate towards integrity, for the highest good.

The third most recurring card was Fire. There is that transformative fire energy again (and again and again).

The Fourth most occurring card was Transformation. The messages could not be more evident.

The last in the top five most occurring energies was Time. When the Time card is as present as we will see it in 2020, we are reminded of two key concepts. The first is that “divine timing” is at play. We are reminded to trust in the unfolding, and we are reminded to keep breathing through the process. The second lesson of the Time card is simply, “It's time!” We are called to bring our awareness and attention to the importance of the now. It is not the time to defer or wait. Now is the time to act, to speak, to claim, and to create.

# Least Occurring Energies

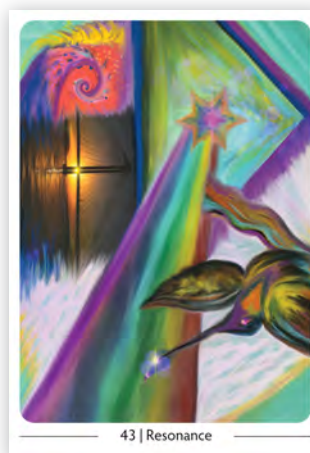

## The Bottom 5 “Least Occurring” Cards Throughout the Year 2020

**Resonance | Inner | Air | Sun | Star**

Understanding the least occurring energies is **JUST** as important for navigating the year in a good way. These are the things you are going to want to stoke and bring forward yourself to help mitigate or balance the more dominant energies of the year. So since, for example, we acknowledge all the transformation and fire energy afoot, the balancing question you're going to be asking yourself is, how do I walk that in a good way? How do I work with my laser beam so that I can transmute it and allow for its medicine? But also how can I balance it? I'd be asking myself, what are the grounding energies and practices? Where are my soothing and grounding energies? Where are these? Well, take note of the cards at the bottom of the list.

We can learn a lot by looking at the least occurring cards. For example, whenever Resonance is NOT present, we have cause for concern, but we also have an opportunity to calibrate. When resonance is absent, things may be feeling like more work than they need to be. The good news is that, through authenticity, congruence, and alignment, we can bring our resonance back into balance.

When looking at these elusive energies, it's important to invite how you will mitigate them for yourself. Where will you find your Inner strength? How are you going to focus on your inner work? How are you actually going to ensure that you're breathing fully (Air), and creating the spaciousness to breathe? How are you going to ensure that you're getting the type of light that feels life-giving, like the Sun? Having the energies of Air, Sun, and Star right beside one another as having the least presence in 2020 is cause for pause. After all, these are some of the core natural elements to the human journey. They are also our guiding systems. So, again, we are being clearly guided to use our tools, and to slow down. In fact, we are guided to go really slowly, so that we can allow ourselves to be fully guided. At its most simple, seeing Inner, Air, Sun, and Star nearly absent in 2020 offers a clear and simple directive: Find your inner strength; claim your life force energy where you can; orient yourself to your north star; keep breathing along the way.

# Least Occurring Energies

We are standing in times that will serve as a bridge between the old story and the new story. We have to excavate and surface the Below energies. We are living with the opportunity to heal hundreds of years of accumulated wounding and grief. We can transmute old patterns, stories, trauma—everything in our subconscious that we didn't even realize we were carrying, and that which is contributing to oppression or hurting. This year the guides are essentially saying, "It's go time for healing. Here it comes." And, though that may sound intense, this can also be a cause for gratitude and celebration. This is all an opportunity for healing. Sarah Love reminds us that this is our ancestors saying, "let's move forward. I'm here with you. We can do this." It's time for radical reinvention. It's a year where we get to rewrite the stories, the new stories, and to write ourselves anew. In the old stories of the wisdom keepers, it had been written that 2020 would be the year that the weaver of time ran out of thread. Instead of seeing that as scary, we might see it as an invitation to reinvent meanings and recognize that, as Sarah Love says, "We **ARE** the thread." We are the weavers. We hold the wand. We are living in a time of creating destiny, of creating new stories for ourselves, and of leaving a legacy for the children of the future generations. So, when we think of these cards for the year, it is important to remember that we have both the needle and the thread at our disposal.

I encourage you to follow that thread. Don't follow it in the form of fear and anxiety. Follow it in the form of gratitude. What does that mean for me? What is the story that I was told about this, and what do I want the story to be? If I could write any story for myself, or for humanity, or for my family, what would it be? That is the fulcrum that we're standing out on right now. We are the authors of our own life stories. We craft the stories that get woven into the whole. So, if we offer one drop of peace, or calm, or reinvention to the cosmic pool, that is the best gift we can give to ourselves and others. You may feel fear creep in. You may have questions surfacing like, "How do I do it?" or, "How is it going to work?" or, "How's it going to happen?" Trust that it is going to happen one moment at a time. It's going to happen one breath, one step at a time. Together, let's remember to align gently to the energies afoot, and to plant the seeds that will blossom into a new and just future.

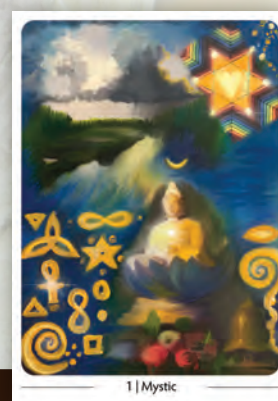

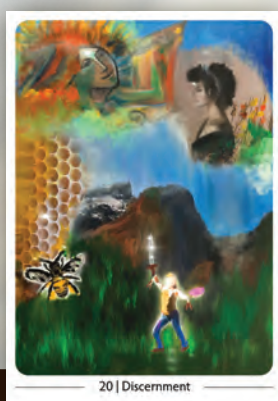

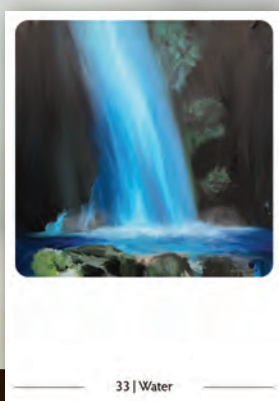

# Wrapping the Bundle ~ The Altar Cards

*“An awake heart is like a sky that pours light.”  
— Hafiz*

In addition to pulling cards for the Three Transformational Levers and the annual Four Card Spread, we also anchor the divination process by determining what energies want to be held on the altar **THROUGHOUT** the entire year. This year there were four altar cards – and each is a powerful and potent ally to supporting us in navigating the year in a good way.

## 2020 Altar Cards: Water | Discernment | Life Force | Mystic

Based on what you see here and those most recurring energies, you might be saying to yourself, “Wait a minute. Where's water? Where's life force energy? Where's the intuitive knowing – the mystic?” It's important to note that those life-giving, empowerment-fueling cards and energies are **LITERALLY** sitting on the altar. This means that while they do not appear in the daily unfolding of the year, they are ever present as overarching themes throughout the year. These are the consistent allies that you are going to want to pay attention to as 2020 unfolds. Remember, the top energies for 2019 were pacing and surrender. It was like the almanac was saying to us, “Hey guys, this isn't a race. It's a full marathon with an ever moving finish line.” So, rather than blow all your energy in the first five miles, what would it be to set up some pacing for yourself? What would it be to set up some water stations? What would it be to anticipate and plan so that you can manage your energy well, and so that you don't crash and burn, or fizzle out. It is important to have reserves of energy for the times and experiences that you most desire. There's a real invitation to be thinking about these as important energies that you want to celebrate, and honor, for sure, but also amplify throughout your world, and throughout the matrix to promote support for the greater good during this transformative period. The Mystic: We see it in the Above. We see it in the Transformation. We see it in so many places. Your tools, your path, your trust, and that ability to hold the wand to do the transmutation: This is The Mystic. The Mystic is front and Center for 2020, so it's a great time to be alive. It's a great time to be you. To be a seeker. A Feeler. A sensitive. We all chose to come in to this lifetime during this time right here, right now. You are not a victim to your circumstances. You have an element of exactly what these times are calling for. You are equipped for this. What an unbelievable, really potent time to be able to affect change, to influence the collective, to transmute these energies.

# In Gratitude

*There's a community of Mystics that are going to change the world and we're part of it. This is part of it.*

*—Karen Crane*

There are so many different ways to look at the opportunity that 2020 holds. If, reading the news, it looks like destruction and chaos, remember that, when you view it from the cosmic level, it actually looks like creating the conditions for re-building. A whole new world is weaving itself into form.

Thank you again for including The 2020 Mystics Oracle Forecast in your annual journey.

In gratitude (and with love & magic),

Lindsay

# Ways to Use the Forecast

- » Read it through and observe its themes and images
- » Use the inquiry and mantras as a journal prompt and let the guidance lead you in deeper inquiry of your own desires for the new year
- » Set reminders to return to the Forecast on key dates (your birthday, seasonal holidays, the solstices...) so you can gain perspective and recalibrate throughout the year
- » Follow along online and go deeper with the guidance in the Oracle deck companion book
- » Don't forget to purchase your copy of the 2020 Mystics Almanac for more explanation of the 2020 oracle, daily and monthly guidance and more

However you choose to use the forecast is just perfect. There is no right or wrong way. We are here with you. You are not walking it alone.

## About The Mystics Almanac

Now in its second year, the Mystics Almanac is the product of a divine weaving between five women bringing the lost arts forward in these times. Mystic mentor and intuitive guide Lindsay Pera, love instigator and artist Sarah Love McCoy, astrological guide and wisdom keeper Vanessa Couto, numerology and happiness coach Kari Samuels, and Akashic records and leadership mentor Priscilla Stephan offer this creation to you with a blessing of good LOVE and MAGIC and WISDOM in all forms.

***“Gratitude for blessings already on their way...”***

The Mystics Almanac held some of the most prescient insights in the tarot and oracle space for 2019 and we are excited to bring forth a product of even finer quality for 2020. We received rave reviews, repeat orders, and gratitude from all who claimed it. This tool show us so gently, so lovingly, that we can stop pushing and striving and swimming upstream and instead ride the natural waves that seek to bring beauty, magic, love, and prosperity into our lives.
