

Study Information 1 (changes reserved) Basic Eurythmy Therapy Training Dornach with State Qualification

Training duration and diploma

This new basic eurythmy therapy training is an innovative pilot project and unites eurythmy basic training with eurythmy therapy training and leads to a state-approved professional qualification in Switzerland.

- 4 years (full-time, incl. all compulsory internships) to receive a specialist certificate (BZ / Oda KT), Complementary Therapist in Eurythmy Therapy. This professional qualification in complementary therapy entitles the holder to EMR registration, professional activity and AHV billing.
- 5 years (dual studies in the 5th year: 50% training with specialization modules and 50% professional practice with supervision) to receive a “Goetheanum diploma” / Diploma of the Medical Section
- 6 years (at least 50% professional practice over 2 years after the specialist certificate, incl. HFP preparation modules) to prepare for the higher professional examination, (HFP / Oda KT).

*Situation in Europe and internationally:

In specific individual cases, the HFP qualification has already been accepted and recognized in EU countries as an equivalent qualification to a Master's degree.

A cooperation with the Alanus University of Arts and Social Sciences in Alfter, Germany, is being sought regarding the European Bachelor-Master system (Bologna educational guidelines) – which is comparable in its basic structure, but academically oriented.

This training will meet the following recognition criteria:

- EMR quality label in Switzerland (ErfahrungsMedizinische Register)
- Swiss certification procedure for institutions in continuing education (eduQua, Schweizerisches Zertifizierungsverfahren für Weiterbildungsinstitutionen)
- Work World Organizations / Complementary Medicine in Switzerland (Oda KT, Organisationen der Arbeitswelt Komplementärmedizin)
- Eurythmy Therapy Association Switzerland (HEBV, Heileurythmie Berufsverband Schweiz – method identification Oda KT)
- Swiss State Secretariat for Education, Research and Innovation (SBFI, Staatssekretariat für Bildung, Forschung und Innovation)
- Medical Section at the Goetheanum / Internat. Coordination of Anthropol. Medicine (IKAM)

Requirements (On request, it is possible to **observe classes** at any time.)

- Enjoyment of eurythmic movement, no previous knowledge is required
- Minimum age: 19 years (Recommendation: at least 21 years)
- Medical certificate
- Interest in eurythmy therapy and its therapeutic possibilities and effects
- Interest in anthroposophical anthropology and a desire to develop it in-depth in the medical context.

Language of instruction: Classes are held predominantly in German or, if required and possible, in English. It is desirable to learn the German language within the first years of study. Translations can be organized according to the number of people registered.

Dates and timetable

Monday to Wednesday: 08:30 – 12:00 / 14:30 – 18:00, Thursday: 08:30 12:00
