

Looking to the future

We live in unprecedented times. The corona virus is not going away by the start of school in the fall. While we all want to get back to something called normal, I am not quite sure what that might look like for our community. My teachers and I are brainstorming ideas and we want your ideas as well. This survey will help us as we navigate our school opening June 1 and move forward into the new school year.

One thing we learned during this time is that we want to support you in your journey to implement Montessori principles at home. This would prepare us all for new "shelter in place" orders that may come during the fall and winter. Is this something you would be willing to participate in to support your child?

Yes

Please share with us what worked best for you with "Learning from Home"

Your answer

Are you willing to sign a school year contract with a plan for "shelter in place". Check all that you would be willing to consider:

At home learning with no class at a reduced tuition rate

A two day at school with reduced class size with a three day at home schedule.

Continue to stay open with distance learning
