

# Make your own stamp game

1. Print all the pages, in color if possible.
2. Using scissors, cut on the blank lines to cut out the stamps.
3. Cut out the skittles (people cards, you will use those for division).
4. Find 4 little boxes or make 4 little containers. Check out the [How to make a paper box](#) – Origami on YouTube.
5. Attach or place the 4 boxes in order, thousands on the left side, and units on the right side.
6. Place the stamps in its corresponding containers.

thousands	hundreds	tens	units
-----------	----------	------	-------

7. Find another box to place your skittles. You will use those for division.
8. Now you are ready to solve problems using your very own stamp game!

Enjoy it!
