

Creating a Culture of

ACCOUNTABILITY

1. What's Working?

What is currently working in your business or organization?

2. What's Not Working?

What's not working or not working as well as you want in your business?

3. What's Missing?

What's missing that should be put in place to make a difference in your business?

3. What's Next?

What actions need to be taken or promised? By whom? By when?
