What is “Right Livelihood?”

“Right Livelihood is your birthright…”

RL = SPP + SC + NPL

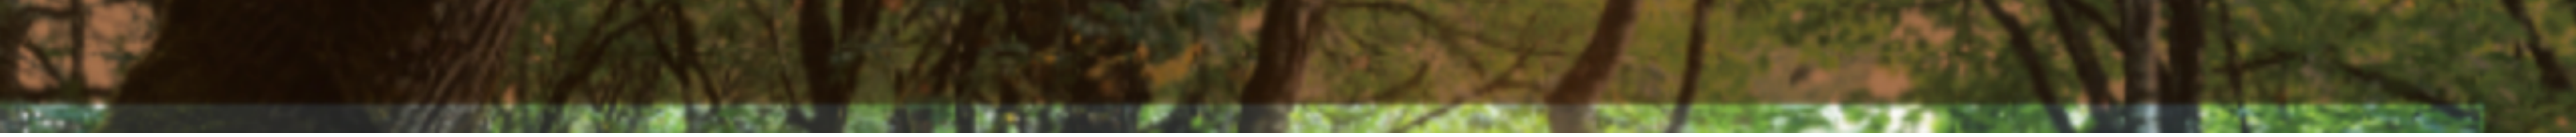

SPP = Soul Purpose and Path —— —-> Why you’re here

SC = Sacred Commerce —— —-> Get paid really well

NPL = New Paradigm Leadership —— —-> Stand in your truth

The outcome is you know why you are on the planet, you are standing in your leadership in your gift and truth, and getting paid really really well to do it.

Turning the spokes of your wheel into "Rings"

- Rings help you prioritize your spokes
- Rings show you what truly matters
- Rings are moveable - priorities shift, circumstances change, your rings are dynamic and shift
- Rings signal to the universe where you desire energy to flow and in what order

How to create your Rings

- Draw a circle on a piece of paper. This is your center ring.
- Now, draw a bigger ring around it.
- Keep drawing larger and larger rings until you have several.
- The innermost represents what is most important to you, that which you can call upon when all else fails. It's your source of comfort, connection, trust, and hope.
- Then, your next ring is the second most important thing in your life, and so on. Setting up your rings is a powerful process. It invites you to really decide—right now, at this moment—what comes first, second, third...
- A possible setup for your rings could have your connection to Source, or Spirit, or God, or your belief system at the very center. That's where you recharge when you're feeling depleted. Your second ring could be your connection to yourself: body, mind, self-care. The next rings could be your closest relationships, your work, your projects, your community ties, etc.. Allow yourself a little time to play with your rings and decide on a setup that feels right, here and now.

Once you've drawn your rings…

- Once you've filled out your rings, look at your life wheel.
- What on your wheel takes up the most time and energy?
- Do your rings reflect your actual time spent?
- Do your rings reflect your TRUE priorties and desires?
- There's no right or wrong way to set up your rings.
- Rings aren't limiting or static. Move them around based on what is real and true for you at the moment.
- Rings are a metaphor, a visual representation of your priorities. They help you discern priorities that can be moved around (outer rings) from those which are non-negotiable (inner rings).
- Honoring your inner rings ensures you can show up whole and be of service in your outer rings.

… When you know your rings, you gain the power to set boundaries in a self-loving, dynamic way.
