

Reading Success

in the early primary years

Commencing July 26th 2021

In this 12 Week Teach Along course you will learn how to fully implement the science of reading in your early primary classroom to get every child on the path to reading proficiency without worksheets, guessing strategies or tears.

- A Teach Along is a 'drip fed' online course that allows you to learn a little, teach a little and then reflect before moving on to something new.

- *Reading Success in the Early Primary Years* is a Teach Along specifically written for early years teachers.

- *Reading Success in the Early Primary Years* is the most comprehensive, practical course on reading instruction available. Not only will you receive information but all aspects of the content will be demonstrated to make it easier for you to take action in your classroom.

This Teach Along is for you if:

- You are new to teaching the early primary years or are seeking to develop your practice in reading instruction.

- You feel overwhelmed by the information about the Science of Reading and need help to implement it in your classroom.
- You have limited time for professional learning and prefer your learning in smaller 'chunks' that allow you to implement as you go

Delivered in 9 Modules and 3 implementation weeks

Access to an exclusive Facebook Community

Lifetime access enables you to complete modules in your own time and at your own pace

5 x done for you PowerPoints in phonological and phonemic awareness

16 videos in the knowledge library covering a range of topics

Downloadable audio files so you can listen to the content as a podcast

Jocelyn Seamer
Education

By the end of this course you will have:

- Developed a strong understanding of how to teach the **6 components of reading instruction** according to the science.
- Planned and conducted lessons using the **explicit teaching model**
- Developed an explicit and highly effective **daily literacy block**
- Conducted **daily shared writing** lessons in your class
- Planned and taught lessons with the aim of building **strong oral language skills** in students
- **Used rich text** to support oral language, sentence structure and writing development
- Assessed and taught **phonological and phonemic awareness skills**
- Planned and taught systematic, explicit **phonics** lessons according to the science of reading
- **Assessed** and **monitored** students' phonics skills
- Used **decodable texts** to support children's reading skills
- Communicated with parents about the science of reading and how they can **support their children at home**
- Taught **irregular, high frequency words** in a way that supports children's reading and spelling development without guessing
