

# Introducing BRAYDEN **BABY** PRO

working with

# BRAYDEN ONLINE

Brayden Online Standard is now available for iPad via the Apple App store.

Additional versions of Brayden Online to be available soon (all versions will be compatible with Brayden Baby Pro).

- Brayden Baby Pro is based upon the award-winning Brayden Baby Advanced.
- Developed in close co-operation with Global Experts.

# INNOSONIAN

## Brayden Baby Pro has the following features:

Provides unique intuitive real-time ventilation feedback using lights and sound. Brayden Baby Pro also provides additional real-time feedback via Brayden Online.

Correct chest compression technique (depth, rate, recoil and finger/thumb position) using lights on the manikin. Brayden Baby Pro also provides additional real-time feedback via Brayden Online.

Easy to use and intuitive debrief of infant BLS performance provided via Brayden Online.

A: + and - allows ventilation feedback to be audio and/or lights.  
B: Scenario button switches on brachial pulse.

The brachial pulse function can be used for infant BLS scenarios when required.

Brayden Baby Pro joins Brayden Pro (adult) working with Brayden Online Standard.

**Brayden Baby Pro, working with Brayden Online, allows multiple Practice and Assessment options. These cater for the AHA infant BLS algorithm (30:2) as well as the ERC infant BLS algorithm (5 rescue breaths, 15:2).**

Comprehensive objective/numeric information is provided by Brayden Online and enables all relevant infant CPR parameters to be assessed.
