Adding a New Word to Dragon

How to make Dragon write words and phrases,
even when they are **strange**
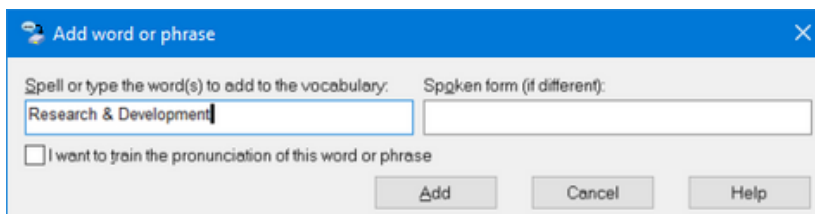

STEP 1

Say: "**Add new word**"

You can say the command at any moment, from any application.

The **Add word or phrase** dialog appears.

## Type the word or phrase you want to add in the left hand field

STEP 2

Add word or phrase

Spell or type the word(s) to add to the vocabulary:
Research & Development

Spoken form (if different):

☐ I want to train the pronunciation of this word or phrase

Add   Cancel   Help

STEP 3

In the right hand field, type the pronunciation of the word or phrase

A recommended step for **words with punctuation** marks and e.g. **names with special pronunciation**

Add word or phrase

Spell or type the word(s) to add to the vocabulary:
Research & Development

Spoken form (if different):
research and development

☐ I want to train the pronunciation of this word or phrase

Add   Cancel   Help

Click **Add** and.. test your new word or phrase!

Enjoy the improved recognition!
