HEY THERE, I'M ROBEN-MARIE!

As tech-savvy artist, instructor and woman of faith, my mission is to serve others and help them get the most out of their art as a hobby, or as a business.

I created Maker's Tech U after 16+ years of running my own businesses online and having many artists reach out to me for tech help. It was a natural transition for me to offer my services to artists and makers who just need a life line to help them navigate on their journey.

I have been a working artist for the last fifteen years, and am self-taught, so I believe that anyone can cultivate their creative spark. I've taught mixed media art workshops and retreats across the U.S. and my work has been featured in countless books and industry magazines.

Blessings,

roben-marie
