# Welcome to the Moons of 2023

Each New & Full Moon has a theme based on the sign of the zodiac it falls under. During a calendar year, we experience a New Moon and a Full Moon in all 12 signs.

By working with the lunations each month, you are encouraged to explore a different life area, which in turn helps you progress and move forward. Use these themes to dive deeper into the lessons of the New and Full Moons for 2023.

During 2023, we have:

- 12 New Moons
- 13 Full Moons
- 2 Lunar Eclipses
- 2 Solar Eclipses
- 1 Black Moon
- 1 Blue Moon
- 4 Super Moons

The New Moon is the start of the lunar cycle and represents new beginnings. This is the time when we set our intentions for the cycle ahead based on the theme of sign of the zodiac.

The Full Moon represents the energetic climax of the lunar cycle, and is a time to pause and soak up the energy and guidance available to us at this time. We use Full Moon energy to reflect on where you have been, where you are right now, and where you are heading.
