## Hi, I'm Aisha Rose

After 20 + years of pouring my love into teaching and practicing architecture internationally and successfully working with land energetics, I've discovered how to design **beautiful properties** that bring **vibrant health & wealth** to my clients and this planet.

My signature system, The Sacred Blueprint™, has touched 1000+ architects & property owners in less than 2 years. I'm a sought-after expert, the only one in my field providing **high-touch coaching** for women architects & designers on how to build a **prospering practice** by tapping Intuition and Nature.

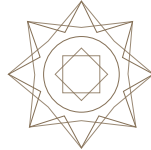

After a successful career working in conventional firms, I was miserable and depleted. I could see the **limits of the old paradigm** and how they were a detriment to our Mother Earth. I listened to my **inner call**, took the **big leap**, and quit my job to **revolutionize** a new way.

Now, I'm passionately living my mission, leading a **flourishing business** and sooo lit up about the work I do everyday!

I want this for you, too! I'm delighted to extend this special invitation...

## “Aisha’s program is vital to my centering and connecting with my truth!”

Aisha’s mentoring has greatly allowed me to explore the inner worlds of myself that are needed in today’s world. And to bring them forward in my passion and thinking. I am integrating parts of my experience. I am fulfilling the mission that I’m here for, Alchemizing, Nurturing, Honoring, and Healing with light in my heart. Aisha is a healer.

So far, I began healing myself and I now recognize I am a healer. So, I can express myself peacefully, without dimming my light with shame or worry. This is part of the container we’ve created, and Aisha is holding supportively through the program, to birth the creativity that’s in me through my projects. For me, saying YES to this is transformational, I am having new breakthroughs often, and achieving my goals. Her guidance has encouraged me to direct my work and make decisions in ways that support my flow.

**“Truly great mentors are hard to find but when found are impossible to forget!”**

“Aisha is one of the rare soul-touching mentors who didn’t have the answers for me but had magical skills to help me find my own. She believed in me, inspired me, helped me focus, was around me and allowed me to see the hope inside myself. She brought forth my skills and encouraged me to master what I am good at. From weakness to strength and from nothing to something, “Aisha” was the “Rose” that balanced my vibes to compose a “Melody” … That’s what AISHA ROSE MELODIE is to me. Every time I try to count my blessings Aisha is amongst the top 3. She’s a soul mentor and I can’t thank her enough for making a great difference in my personal & professional life. With her empowering me to see a possible future, and believe it can be obtained, allowing me to see the higher part of myself when sometimes it becomes hidden to my own view I will always find my way to move forward with her”.

**“What a wonderful pleasure and process to experience the birthing of my long held dream retreat sanctuary with Aisha!”**

“Although a lot of my vision was in my head prior, after working with Aisha I have a beautiful conceptual drawing with which to manifest the ideal property. Aisha’s unique process took me deeper into my vision and at the same time allowed her to really listen to my thoughts and ideas. Then she added her amazing intuitive talents to produce a plan that is already way more wonderful than I could have imagined by myself. I look forward to continuing collaboration with her and I know she is bursting with many more creative ideas to bring this project into the new world. I cannot recommend Aisha enough for anyone considering the creation of a project that needs to birth, for the healing of mother earth and all its inhabitants. Aisha brings the connection with the spirit of the land (small or large) to the design process. When spirit endorses the project, it cannot help but be perfect for those that will experience its healing energy.”

**Margaret Olsthoorn, Interior Designer and Community Builder**

**“Architecture has never been more meaningful to me!”**

“Aisha Rose was my teacher at University while I was studying architecture. She has been inspiring me since I was a student, reminding me that there is no limit to learning from Nature. Architecture has never been more meaningful to me. Aisha’s enlightening course has initiated a big movement in me; this is how Nature will help us to grow. I greatly appreciate the unique guidance Aisha Rose gives through The Sacred Blueprint™!”

**Ece Akcay, Architectural Design Manager**

**“The gift that Aisha shares is unique in its transformation to allow you to grow directly and indirectly from her teachings and through her words of empowerment.”**

In her one-on-one mentor offerings, she finds those points of connections with the land, with spirit, with inspiration, and with source, and stewards you into finding your own connections as well. Her personalized meditations and check-ins guided me step-by step into developing a greater trust in my intuition and body sense while the practices and exercises encouraged me to think through how it all translated into the vision and mission of creating my business offerings”.

**Tami Codianne-Miller**, Intuitive Designer and Community Builder

**“I am able to achieve more than I thought possible for myself!”**

“I love how Aisha guides me with her individuality. With an intuitive way she feels very well what is right and what is not right. Aisha brings out my uniqueness. She motivates and enthuses and also knows how to correct where necessary. This is a nice balance between male doing energy and female arising energy. In this way, I can only become the best version of myself, right now. I am able to achieve more than I thought possible for myself! Because of her guidance and motivation, I can now transform all thoughts, all possibilities that shoot or wander through my mind into actions, concrete and tangible form. Because of this I am now developing and working out a unique, workable trajectory for my clients, which also completely fits who I am. Through our cooperation and guidance I gain self-confidence in my own abilities. It is worth it and I am already motivated to get out what is in it, every moment!
