

This is how our offer work – Swedexport

Strategic workshops – Export development

Transform your real export potential into concrete result-driving measures. We support you in your process of developing the solutions.

Boost selected areas in your export business

We work through the weaknesses that you have identified in your export operations together to determine what development potential exists and what improvement measures can lead you to your goals.

We work together in WS's (number as needed). The work is led by an experienced facilitator and export developer.

If you want to know more, contact us for further [dialogue here](#).
