

Greetings!

We are thrilled to announce that our 4th annual GLOW event will take place Halloween weekend at our Freeport campus (October 27-29, 2023). This event brings the community together to celebrate the fall season, experience woodsy Halloween fun, and support the mission of Through The Trees (TTT).

GLOW is our largest annual fundraiser and supports the TTT Youth Scholarship Fund, allowing equal access to our nature immersion programs regardless of income. Currently one-third of our participants are receiving scholarship support.

Founded in 2019, Through The Trees works hard to connect children with nature on our 58 acres of forest, field, and pond. Parents continue to witness their children become happier, more resilient, responsible, self-aware and mindful through TTT programs. We serve over 150 children annually in our 9-month nature immersion program and over 250 children each summer in addition to after-school and community programming. Through The Trees also partners with local public schools and community organizations to provide meaningful nature experiences to as many area youth as possible.

How can you give to Through The Trees in a meaningful and fun way? Sponsorship of our GLOW event not only supports our scholarship and school partnership programs but will help TTT meet the demand for our programs, which grows each year. All giving levels help us raise vital dollars while giving your company or organization exposure to the approximate 800 community members who attend the event annually. We feature and thank GLOW sponsors through onsite signage as well as in event marketing, website, e-communications, and social media.

As you consider supporting TTT as an event sponsor, please contact us at support@throughthetrees.org with any questions about the event or giving opportunities. We do hope you'll join us for this glowing October event in nature, while helping us get more kids outside to experience the healing and rejuvenating effects of the natural world!

In Gratitude,

Marcia Griffin
