

## Making 2024 Better Than 2023

Happy New Year! Answer these questions to make this your best year in practice yet:

Are you working the days/hours you want to work? If not, what do you want your schedule to be?

Are you working with the clients that you do great work with AND that feels sustainable for another year? If not, what's your plan for shifting that? (We recommend the [Abundance Party](#))

Is your fee where you want it? If not, do the [free calculator](#) at Lean In Make Bank.

What practice goals do you have for this week? Make sure they're things you do, not actions clients or potential clients take.

List 3 things you should pat yourself on the back about.

Identify the biggest need/pain point in your practice & make a plan for how to solve it.

Depending on your struggle the fix may be the [Abundance Party](#), [Party±](#), or [Limitless Practice](#)
